DISCUSSION—A recent study by the National Cancer Institute (1) found that 10% of the U.S. population, or 25 million people, had never smoked a cigarette. This finding is important because it indicates that a large number of people are still susceptible to the effects of cigarette smoking. The purpose of this study was to determine the prevalence of cigarette smoking among the adult population of the United States in 1990. The results of this study are presented in Table 1. The prevalence of cigarette smoking among the adult population of the United States in 1990 was 25.1%. The prevalence of cigarette smoking among the adult population of the United States in 1990 was 25.1%.

Items included with question papers

Candidates may use any calculator allowed by the regulations of the Joint Council for Qualifications. Calculators must not have the facility for symbolic algebra manipulation or symbolic differentiation/integration, or have retrievable mathematical formulae stored in them.

Instructions to Candidates

In the boxes above, write your centre number, candidate number, your surname, initials and signature. Check that you have the correct question paper.

Answer ALL the questions.

You must write your answer for each question in the space following the question.

When a calculator is used, the answer should be given to an appropriate degree of accuracy.

Information for Candidates

A booklet "Mathematical Formulae and Statistical Tables" is provided.

Full marks may be obtained for answers to ALL questions

The marks for individual questions and the parts of questions are shown in round brackets: e.g. (2).

There are 10 questions in this question paper. The total mark for this paper is 75.

There are 32 pages in this question paper. Any blank pages are indicated.

Advice to Candidates

You must ensure that your answers to parts of questions are clearly labelled

You should show sufficient working to make your methods clear to the Examiner.

Answers without working may not gain full credit
