Inside, you'll get cliff notes versions of Monica's best and most requested ideas from across her nonfiction catalog, including *The Hierarchy of Prosperous Creation* (build a career on mindset, craft, rhythm, and resilience), *The Accelerator's Formula* (achieve any goal faster with this powerful 6-step process), *Story Symmetry* (write deeply aligned marketable books that become reader obsessions), *Author Ecosystems* (discover your archetype and use it to design a business that works for you), *Funnel Flywheel* (understand how readers become superfans and then spread your work), *The Fandom Flywheel* (build a loyal, self-sustaining reader base that sells your books for you), plus six more systems for audience growth, visibility, branding, and book virality. Whether you're just getting started or ready to scale to your next level, this book is the business oracle deck every author needs. LEGO Studies Mark Wolf, 2014-11-13 Since the Automatic Binding Bricks that LEGO produced in 1949 and the LEGO System of Play that began with the release of Town Plan No. 1 in 1955, LEGO bricks have gone on to become a global phenomenon and the favorite building toy of children as well as many an AFOL (Adult Fan of LEGO). LEGO has also become a medium into which a wide number of media franchises, including Star Wars, Harry Potter, Pirates of the Caribbean, Batman, Superman, Lord of the Rings, and others, have adapted their characters, vehicles, props, and settings. The LEGO Group itself has become a multimedia empire, including LEGO books, movies, television shows, video games, board games, comic books, theme parks, magazines, and even MMORPGs. *LEGO Studies: Examining the Building Blocks of a Transmedial Phenomenon* is the first collection to examine LEGO as both a medium into which other franchises can be adapted and a transmedial franchise of its own. Although each essay looks at a particular aspect of the LEGO phenomenon, topics such as adaptation, representation, paratexts, franchises, and interactivity intersect throughout these essays, proposing that the study of LEGO as a medium and a media empire is a rich vein barely touched upon in Media Studies.
