Professional Development in Applied Linguistics Luke Plonsky, 2020-07-30 Success in academia requires more than an understanding of discipline specific literature and an ability to teach and do research It is also necessary to develop an understanding of a range of professionally oriented skills such as how to identify and apply to doctoral programs how to make the most of conferences how to achieve a semblance of work life balance and how to land a job Unfortunately however training on such professional matters is often inconsistent and or idiosyncratic This book seeks to consolidate and demystify these critical and often misunderstood aspects of professional development in the context of applied linguistics Put another way this book is an attempt at the text many of us wish we had as we began our graduate studies Throughout the book readers will find anecdotes and insights informed by individual authors first hand experiences The resulting tone across the volume is that of a meet up with a trusted and thoughtful mentor As readers meet with these mentors it is the hope of this volume that their guidance will help move readers closer to realizing their professional goals in applied linguistics
