# WRITING A NOVEL

Writing a novel can be a long and difficult process. It can often be hard to know what steps to take. Below is an easy path to take when creating a novel.

## Create characters, setting, & plot

Once you have an idea, create **detailed character sheets**, setting details, maps, and define your plot.

**World Anvil** is a great online tool for this!!

## Write!

Write your novel straight through and don't go back to make changes! **Just WRITE!**

## Rewrite a lot

Now, go back and **rewrite as much as you need**. Rewriting is a long process and it's up to you to decide when it's **perfect**.

## Revise & edit

Revise & edit...on repeat. **Keep fixing up your novel** with the tips offered by your beta readers.

## Have a Marketing Strategy

The best practice for this step is to **make your strategy while you're still writing your book**.

Perfect it here!

## Market & Promote

**Marketing & promotion is key** for a successful book launch & sales! Make sure you stay on top of things!

## Get inspired

The first step of any novel is to **get inspired**. Jot down book ideas in your journal, research ideas online, take part in **writing prompts**, etc.

Once you get an idea, **hone it**.

## Make an Outline

Make an in depth outline, even going so far as to **outline every chapter and scene!**

## Leave it alone

**Leave your first draft alone for 3 days** before going back to edit.

This will keep you from overediting or not editing enough.

## Get Beta Readers

**Reach out to people** on social media or friends to read your book and **offer constructive criticism!**

## Make a book cover

Once your book is done, **write a synopsis** and create a book cover. I like to use **Canva** for my covers.

**Make sure you're adhering to your publishers guidelines!**

## Publish!

This is a tricky step for self-publishers, but places like **Ingram spark** make it easier!

Volume III is the first educational product to tackle the complex subject of Timba the new musical genre which has been played in Cuba since 1989 Timba represents a quantum leap for all the instruments of the rhythm section and especially the congas The recordings of Tomas Cruz are considered the most advanced examples of Timba conga playing and so fascinated the three coauthors that they sought out Tomas Cruz and spent a year and a half studying his style and meticulously documenting it before even considering the idea of publishing it After many hundreds of hours of passionate research this labor of love eventually reached fruition as Volume III Volumes II I were then written to trace the roots of the style and to understand the path Tomas took to arrive at his phenomenal level of technical mastery and rhythmic creativity Much more than a collection of patterns or exercises Volume III analyzes Timba arrangements from beginning to end explaining the role of the congas in each section the relationship to the clave and Tomasito's creative process including an exercise which teaches the reader to invent his own Timba conga parts It was the intricacies of the material of Volume III which inspired the creation of the Step by Step online video Method which enables the reader to learn these exciting new rhythms in a fraction of the time it would take working with only written music and audio recordings
