[Artificial Intelligence for Business](#) Jeffrey L. Covey, Jason L. Anderson, 2020-04-09 Artificial Intelligence for Business A Roadmap for Getting Started with AI will provide the reader with an easy to understand roadmap for how to take an organization through the adoption of AI technology It will first help with the identification of which business problems and opportunities are right for AI and how to prioritize them to maximize the likelihood of success Specific methodologies are introduced to help with finding critical training data within an organization and how to fill data gaps if they exist With data in hand a scoped prototype can be built to limit risk and provide tangible value to the organization as a whole to justify further investment Finally a production level AI system can be developed with best practices to ensure quality with not only the application code but also the AI models Finally with this particular AI adoption journey at an end the authors will show that there is additional value to be gained by iterating on this AI adoption lifecycle and improving other parts of the organization

Algorithmic Intimacy Anthony Elliott, 2022-10-11 Artificial intelligence not only powers our cars hospitals and courtrooms predictive algorithms are becoming deeply lodged inside us too Machine intelligence is learning our private preferences and discreetly shaping our personal behaviour telling us how to live who to befriend and who to date In Algorithmic Intimacy Anthony Elliott examines the power of predictive algorithms in reshaping personal relationships today

From Facebook friends and therapy chatbots to dating apps and quantified sex lives Elliott explores how machine intelligence is working within us amplifying our desires and steering our personal preferences He argues that intimate relationships today are threatened not by the digital revolution as such but by the orientation of various life strategies unthinkingly aligned with automated machine intelligence Our reliance on algorithmic recommendations he suggests reflects a growing emergency in personal agency and human bonds We need alternatives innovation and experimentation for the interpersonal intimate effort of ongoing translation back and forth between the discourses of human and machine intelligence Accessible and compelling this book sheds fresh light on the impact of artificial intelligence on the most intimate aspects of our lives It will appeal to students in the social sciences and humanities and to a wide range of general readers
