Counter Terrorism Narrative Strategies:

Counter-terrorism Ajit K. Maan, 2015 Understanding and harnessing the persuasive powers of narrative is central to US and international counter terrorism efforts There is an urgent need to understand the narrative tactics of terrorist recruitment and an equal if not greater need to destabilize and exploit the weaknesses of those narratives Maan makes a connection unique to terrorism studies between the mechanisms of colonizing narratives and psychological warfare aimed at the recruit The power of both relies on misidentification both types of narratives encourage individuals to take actions contrary to their best interests and both are insidious they are continued internally without the implementation of external physical force While these narrative strategies have been powerful Maan makes the argument also unique to terrorism studies that certain types of compositional structures lend themselves to manipulation and the weakness of those structures can be exploited from a security standpoint Narrative Warfare Ajit Maan, Ajit Maan Ph D, 2018-04-03 Contemporary wars are largely wars of influence and they will not necessarily be won by those with the most information or the most accurate data They will be won by those effectively tell the meaning of the information and what difference it makes for the audience

Narrative Justice Rafe McGregor, 2018-09-16 This book introduces narrative justice a new theory of aesthetic education the thesis that the cultivation of aesthetic or artistic sensibility can both improve moral character and achieve political justice The author argues that there is a subcategory of narrative representations that provide moral knowledge regardless of their categorisation as fiction or non fiction and which therefore can be employed as a means of moral improvement McGregor applies this narrative ethics to the criminology of inhumanity including both crimes against humanity and terrorism Expanding on the methodology of narrative criminology he demonstrates that narrative representations can be employed to evaluate responsibility for inhumanity to understand the psychology of inhumanity and to undermine inhumanity and are thus a means to the end of opposing injustice He concludes that the cultivation of narrative sensibility is an important tool for both moral improvement and political justice **Cultural, Religious and Political Contestations** Fethi Mansouri, 2015-05-06

This book examines the foundations of multiculturalism in the context of migr societies and from a multi dimensional perspective The work considers the politics of multiculturalism and focuses on how the discourse of cultural rights and intercultural relations in western societies can and should be accounted for at a philosophical as well as performative level Theoretical perspectives on current debates about cultural diversity religious minorities and minority rights emerge in this volume The book draws our attention to the polarised nature of contemporary multicultural debates through a well synthesised series of empirical case studies that are grounded in solid epistemological foundations and contributed by leading experts from around the world Readers will discover a fresh re examination of prominent multicultural settings such as Canada and Australia but also an emphasis on less examined case studies among multicultural societies as with New Zealand and Italy Authors engage critically and innovatively with the various ethical challenges and policy dilemmas

surrounding the management of cultural and religious diversity in our contemporary societies Comparative perspectives and a focus on core questions related to multiculturalism not only at the level of practice but also from historical and philosophical perspectives tie these chapters from different disciplines together This work will appeal to a multi disciplinary audience including scholars of political philosophy sociology religious studies and those with an interest in migration culture and religion in contemporary societies

Extremist Islam Kumar Ramakrishna, 2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia

Internarrative Identity Ajit K. Maan, 2009-12-08 A tour de force of scholarship and major contribution to the history of thought concerning the nature of personal identity Internarrative Identity Placing the Self asks how identity is created and examines the history of conceptions of the self from Aristotle to Postmodernism to find the answers Ultimately Maan discovers that the human capacity for self creation exists in what have previously been problematic areas of experience conflict marginalization disruption exclusion subversion deviation and contradiction

Maan,Paul Cobaugh,2018-06-16 This book is literally a first of a kind and ground breaking in its intent The intent of this book is to give national security professionals and other interested parties a baseline understanding of narrative and its principles regarding the potential for predictably triggering behavior If we are to succeed on the battlefield of influence understanding narrative is an imperative This introductory study guide describes methods from strategic to tactical to win Narrative Warfare We begin by defining narrative and its four components We move to a description of offensive and defensive narratives and then provide details about the specific type of Narrative Identity Analysis of the target audience that will be necessary in order to put together a comprehensive Narrative Strategy We demonstrate how to trigger identities and frame events in order to completely dominate in Narrative Warfare For a more complete understanding of influence in general and a more well rounded understanding of narratives role in influence it is highly recommended to add Narrative Warfare Dr Ajit Maan 2018 and Information Warfare the Lost Tradecraft Dr Howard Gambrell Clark 2018 to your library Both are Narrative Strategies publications Government Policies on Religious Education and Prevention of Violent Extremism in Southeast Asia Khoirun Nisa,2019 **Crimes of Power & States of Impunity** Michael Welch,2009 Since 9 11 a new configuration of power situated at the core of the executive branch of the U S government has taken hold In Crimes of Power States of Impunity Michael Welch takes a close look at the key historical political and economic forces shaping the country s response to terror Welch continues the work he began in Scapegoats of September 11th and argues that current U S policies many enacted after the attacks undermine basic human rights and violate domestic and international law He recounts these offenses and analyzes the system that sanctions them offering fresh insight into the complex relationship between power and state crime Welch critically examines the unlawful enemy combatant designation Guantanamo Bay recent torture cases and

collateral damage relating to the war in Iraq This book transcends important legal arguments as Welch strives for a broader sociological interpretation of what transpired early this century analyzing the abuses of power that jeopardize our safety and security
