Iraq in Crisis Anthony H. Cordesman,Sam Khazai,2014-06-04 Iraq is a nation in crisis bordering on civil war The country now faces growing violence a steady rise in Sunni Islamist extremism an increasingly authoritarian leader that favors Iraq's Sunnis and growing ethnic tension between Arabs and Kurds The recent Iraqi election offers little promise that it can correct the corruption the weaknesses in its security forces and the critical failures in governance economic development and leadership The problems Iraq faces in 2014 are a legacy of mistakes made during and after the U S led invasion in 2003 but increasingly the nation is dealing with the self inflicted wounds of its leaders who abuse human rights repress opposing factions and misuse the Iraqi police and security forces to their own end Country Reports on Terrorism 2013 United States United States Department of State,2014-12-04 Al Qaeda AQ and its affiliates and adherents worldwide continue to present a serious threat to the United States our allies and our interests While the international community has severely degraded AQ's core leadership the terrorist threat has evolved Leadership losses in Pakistan coupled with weak governance and instability in the Middle East and Northwest Africa have accelerated the decentralization of the movement and led to the

affiliates in the AQ network becoming more operationally autonomous from core AQ and increasingly focused on local and regional objectives. The past several years have seen the emergence of a more aggressive set of AQ affiliates and like minded groups most notably in Yemen, Syria, Iraq, Northwest Africa and Somalia. AQ leadership experienced difficulty in maintaining cohesion within the AQ network and in communicating guidance to its affiliated groups. AQ leader Ayman al-Zawahiri was rebuffed in his attempts to mediate a dispute among AQ affiliates operating in Syria, al-Nusra Front and al-Qaida in Iraq (AQI) now calling itself the Islamic State of Iraq and the Levant (ISIL) which resulted in the expulsion of ISIL from the AQ network in February 2014. In addition, guidance issued by Zawahiri in 2013 for AQ affiliates to avoid collateral damage was routinely disobeyed, notably in attacks by AQ affiliates against civilian religious pilgrims in Iraq, hospital staff and convalescing patients in Yemen, and families at a shopping mall in Kenya. Terrorist violence in 2013 was fueled by sectarian motivations, marking a worrisome trend in particular in Syria, Lebanon and Pakistan where victims of violence were primarily among the civilian populations. Thousands of extremist fighters entered Syria during the year, among those a large percentage reportedly motivated by a sectarian view of the conflict and a desire to protect the Sunni Muslim community from the Alawite dominant Assad regime. On the other side of the conflict, Iran, Hizballah and other Shia militia continued to provide critical support to the Assad regime, dramatically bolstering its capabilities and exacerbating the situation. Many of these fighters are also motivated by a sectarian view of the conflict and a desire to protect the Shia Muslim community from Sunni extremists. The relationship between the AQ core and its affiliates plays out in the financial arena as well. As was the case for the last few years, the affiliates have increased their financial independence through kidnapping for ransom operations and other criminal activities such as extortion and credit card fraud. Al-Qaida in the Arabian Peninsula (AQAP) and al-Qaida in the Islamic Maghreb (AQIM) are particularly effective with kidnapping for ransom and are using ransom money to fund the range of their activities. Kidnapping targets are usually Western citizens from governments or third parties that have established a pattern of paying ransom for the release of individuals in custody. Private donations from the Gulf also remained a major source of funding for Sunni terrorist groups, particularly for those operating in Syria. In 2013, violent extremists increased their use of new media platforms and social media with mixed results. Social media platforms allowed violent extremist groups to circulate messages more quickly, but confusion and contradictions among the various voices within the movement are growing more common. Increasingly, current and former violent extremists are engaging online with a variety of views on tactics and strategy, including admitting wrongdoing or recanting former beliefs and actions.

Terrorism and Political Violence in West Africa: a Global Perspective Adebayo E. Adeyemi, Mahmoud N. Musa, 2015-07-30. properties and infrastructure wantonly destroyed thus culminating in significant displacement of people and acute poverty If these developments are not carefully and timeously addressed they are capable of eroding progress so far recorded It is against this background that this Thesis undertakes a study of the different manifestations of terrorism and related transnational security challenges in West Africa to explore the internal and external sources and drivers of instability establish the linkages between terrorism and transnational threats examine the various steps taken in recent time to strengthen the sub regions capacity to prevent and address the menace of terrorism and other security challenges and make necessary policy recommendations based on comprehensive best practices
