Views from the Streets Roberto Aspholm, 2020-02-04 Chicago has long served as a symbol of urban pathology in the public imagination The city's staggering levels of violence and entrenched gang culture occupy a central place in the national discourse yet remain poorly understood and are often stereotyped Views from the Streets explains the dramatic transformation of black street gangs on Chicago's South Side during the early twenty first century shedding new

light on why gang violence persists and what might be done to address it Drawing on years of community work and in depth interviews with gang members Roberto R Aspholm describes in vivid detail the internal rebellions that shattered the city s infamous corporate style African American street gangs He explores how in the wake of these uprisings young gang members have radically refashioned gang culture and organization on Chicago s South Side rejecting traditional hierarchies and ideologies and instead embracing a fierce ethos of personal autonomy that has made contemporary gang violence increasingly spontaneous and unregulated In calling attention to the historical context of these issues and to the elements of resistance embedded in Chicago s contemporary gang culture Aspholm challenges conventional views of gang members as inherently pathological He critically analyzes highly touted universal violence prevention strategies depicting street level realities to illuminate why they have ultimately failed to reduce levels of bloodshed An unprecedented analysis of the nature and meaning of gang violence Views from the Streets proposes an alternative framework for addressing the seemingly intractable issues of inequality despair and violence in Chicago
