IMPORTANT:

CM7 RS232 Port – Finetech recommends not using this port for 1 or 2 way datalink connections. The protocol from the CM4200 and CM1000-S does not always match that of the current bypass modules and may cause issues. Power and ground are still available for this port however we recommend hardwiring all bypass modules.

Additional Items to Install

Antenna

Usually mounted on the front windshield. Stay at least 1 to 2 inches away from metal and try to mount below the tint stripe. **IMPORTANT:** use caution when running the antenna cable and keep it free from snags and where it can be pinched when reassembling the vehicle.

Hood Pin

This is included in the wiring kit and Finetech recommends installing this in any vehicle. This is to prevent any injury or damage if the hood is open and the remote start is engaged.
