Passage 1

Please close read the passage. Underline the similarities in **Red**, and differences in **Green**. Then, answer the questions below.

Running vs. Swimming

Running and swimming are excellent exercises for our body. They help us control our weight, reduce our risk of diseases, and improve our mental health. Though both are very popular, people still have reasons to choose one over the other. For example, running doesn't require a lot of investment because you only need your sneakers, and you can run anywhere. However, for swimming, you need to prepare swimming suits, goggles and sometimes even swimming caps. Also, swimming is refreshing in hot weather while running is not. What's more, there are different swimming strokes, but there is only one way to run.

Teaching Children to Read Douglas Ray Reutzel, Robert B. Cooter, 2004
For Elementary Reading Methods courses. This comprehensive and balanced look at literacy practice has long been one of the most popular reading methods texts available. The text begins by introducing seven principles for comprehensive reading instruction and then explains the theoretical foundations of teaching reading. Part I builds on those foundations with specific methods. In Part II and then in Part III it describes how to create a variety of learning centers and how to plan developmentally appropriate reading curriculum for students in both K-3 and 4-8 classrooms. Chapters 12 and 13 provide a continuum of knowledge by describing classroom organization and curriculum for grades 4-6 and 6-8.
