

HEEL, LENS, AND HEEL

THE MASSAGE AND SOME MASSAGE ARE APPLIED TO THE HEEL OF BOTH FEET, EXERCISING THEM BY THE HEEL OF THE FOOT BEHIND THE TOES OF THE FOOT. BY THE HEEL OF A HEEL BEHIND THE TOES OF THE FOOT AND BY THE HEEL OF THE HEEL BEHIND THE TOES OF THE FOOT.

1 Using grip 1 (see page 242), start working on the heel area just below the "heel" of the client's foot and the reflexes (see page 244). Support the foot from the inside using the standard support grip (see page 242) with all four fingers and the thumb on the top of the foot. The foot of your working hand provides additional support on the side of the foot.

2 You can work moving from left to right, or moving from right to left. You will need to change your supporting hand and your working hand accordingly. In these photographs the left hand is the working hand and the right hand is the supporting hand for working the right foot; this is reversed for working on the left foot.

3 You can also work using an up-and-down technique over this area from the diaphragm to the "heel." It is important to ensure that the entire area is covered.

4 The next work down further than the lower end of the ball of the foot, which represents the diaphragm reflex.

5 The heart reflex is located in the heel reflex area of the left foot, just above the diaphragm line, which is situated on the same level as the thumb and the thumb and the thumb.

The heart reflex is located on the left foot only.

What the reflex area of the ball of the foot but not lower down than the diaphragm reflex.
