*From Individualism to the Individual* George M. Frankfurter,Elton G. McGoun,2018-01-18 This title was first published in 2002 From Individualism to the Individual treats finance as a social and cultural process exploring the unseen side of academic discourse and the many obstacles the deeply entrenched elite puts in the way of alternative thinking Opening with a detailed discussion of the role of ideology in the perpetuation of the limited methodological bias of the profession toward markets the book then examines the more specific effects of such ideological limitations on theoretical and empirical research in finance The authors develop alternative ways

to examine finance both as a profession and as a field of inquiry This book will be of particular value to researchers and practitioners working in finance as well as those in other social science disciplines whose research relates to finance culture and society     **Dissertation Abstracts International** ,2008     *The Empty Sea* Ilaria Perissi,Ugo Bardi,2021-02-12 The Blue Economy is used to describe all of the economic activities related to the sea with a special emphasis on sustainability Traditional activities such as fisheries but also undersea mining tourism and scientific research are included as well as the phenomenal growth of aquaculture during the past decade All of these activities and the irresistible prospect of another new frontier has led to enthusiastic and most likely overenthusiastic assessments of the possibilities to exploit the sea to feed the world provide low cost energy become a new source of minerals and other future miracles This book makes sense of these trends and of the future of the blue economy by following our remote ancestors who gradually discovered the sea and its resources describing the so called fisherman s curse or why fishermen have always been poor explaining why humans tend to destroy the resources on which we depend and assessing the realistic expectations for extracting resources from the sea Although the sea is not so badly overexploited as the land our demands on ecosystem services are already above the oceans sustainability limits Some new ideas including fishing down for untapped resources such as plankton could lead to the collapse of the entire marine ecosystem How Neanderthals crossed the sea in canoes how it was possible for five men on a small boat to kill a giant whale what kind of oil the virgins of the Gospel put into their lamps how a professor of mathematics Vito Volterra discovered the equations of fishing why it has become so easy to be stung by a jellyfish while swimming in the sea and how to play Moby Dick a simple board game that simulates the overexploitation of natural resources are just some of the questions that you will be able to answer after reading this engaging and insightful book about the rapidly expanding relationship between humanity and the sea     **Advances in Financial Machine Learning** Marcos Lopez de Prado,2018-01-23 Learn to understand and implement the latest machine learning innovations to improve your investment performance Machine learning ML is changing virtually every aspect of our lives Today ML algorithms accomplish tasks that until recently only expert humans could perform And finance is ripe for disruptive innovations that will transform how the following generations understand money and invest In the book readers will learn how to Structure big data in a way that is amenable to ML algorithms Conduct research with ML algorithms on big data Use supercomputing methods and back test their discoveries while avoiding false positives Advances in Financial Machine Learning addresses real life problems faced by practitioners every day and explains scientifically sound solutions using math supported by code and examples Readers become active users who can test the proposed solutions in their individual setting Written by a recognized expert and portfolio manager this book will equip investment professionals with the groundbreaking tools needed to succeed in modern finance     **Small Business Computers** ,1982     **Business Periodicals Index** ,1997     **College Algebra Essentials Ie Sup** Sullivan,2004-08     **Yearbook** ,1979     **Applications in School Mathematics** Sidney Sharron,1979     *Canadian*
