Engaging Undergraduates in Publishable Research: Best Practices Traci A. Giuliano, Jeanine L. M. Skorinko, Marianne Fallon, 2019-11-20 Although many articles and books have been written about conducting research with undergraduates there is a dearth of research on the process of publishing with undergraduates Thus in this research topic we assembled a collection of 43 articles from 98 researchers worldwide who are passionate about and have had success in publishing high quality peer reviewed journal articles with undergraduates The diverse articles represent a wide range of practices to help researchers publish with undergraduates including structuring the curriculum to promote undergraduate research and publication optimizing research experiences for undergraduates training students in implementing advanced techniques accessing special populations or conducting research in off campus settings addressing institutional and career challenges for faculty and increasing inclusion and diversity Each article provides a unique and diverse perspective that nevertheless resonates across contexts and situations We hope that the ideas models techniques and practices in these articles will motivate and inspire readers to begin continue or rethink how they engage undergraduates in publishable research we also hope to stimulate empirical and quantitative research on the effectiveness of these ideas models techniques and practices
