The asymmetric enclosure provides typical angles needed for ceiling and wall mounting as well as for stage monitor operation. For permanent installation, enclosure hardware includes mounting points for an Omnimount® Series 300 or similar bracket and fly track for suspension. Provisions for portable use include a pole mount cup, top/bottom fly track for rigging, and handles integral to the enclosure that facilitate handling and transport. The JFX290 is particularly suitable as a near field main loudspeaker or as a fill/delay element in larger systems. While the JFX290 is well suited as is for many applications, the addition of a subwoofer expands its capabilities for more demanding applications such as for houses of worship, theaters, and band PA.
