Celestino, Aline Tito Barbosa Silva, 2024-10-23 A transição para a reserva um longo processo que em verdade tem o seu início a partir do ingresso nas escolas de formação. Nessa caminhada cada passo de progresso na carreira representa um tempo a menos de permanência no serviço ativo. Assim, como a trajetória profissional já vislumbrando o que se deseja viver na inatividade, algo necessário aos militares. Testemunhando o avanço tecnológico, os dispositivos de inteligência artificial e a fluidez do tempo no contexto presente me parece um exercício um tanto quanto interessante olhar a vida em retrospectiva. Este livro ao destacar como tema os estudos sobre a transição de militares para a reserva apresenta dados sobre o estado geral de saúde dos militares do Exército Brasileiro na iminência da retirada do serviço ativo e dos veteranos. Tendo como referência a pesquisa BRAVET Veteranos Brasileiros executada pelo Instituto de Pesquisa da Capacitação Física do Exército (IPCEx) por meio do fomento investido pela Coordenadoria de Avaliação e Desenvolvimento da Educação Superior (CADESM) subordinada ao Departamento de Educação e Cultura do Exército (DECEX), esta obra inédita não apenas demonstra a importância das pesquisas que emergem das instituições militares que servem ao Exército e ao Brasil, General de Exército Francisco Carlos Machado Silva, Chefe do Departamento de Educação e Cultura do Exército (DECEX).
