the first time then moves on to the second leavening and finishes by baking the bread in the machine. The complete cycles can vary from two to three hours; many machines have a countdown timer. The dough setting machines allow you to remove the bread dough at the end of the shortest cycle, first leavening, where you can then shape it manually, set the leavening and complete the bread baking process in the oven of your range. A dough cycle is an essential feature if you prefer bread baked in the bread machine's oven rather than in the baker's oven.
