Domestic Violence Against Women

Many women are suffered and do not have the same right as men in our society. They are limited on their ability to express themselves, therefore, sometimes that drove them to depression or other mental illnesses. One of the main reasons that some people do not respect women is the mentality that the entire society was raised with, which mainly implemented in people's minds as children. On the story "The Yellow Wall-Paper" by Stetson, the author introduced one of the abuses. The unequal treatment of women due to the socially constructed norms and myths has affected our society. Women get abuse not only physically, but psychologically and emotionally. Women's isolation from society is one of the worst violence they can face.

Women have consistently battled for equivalent rights with men. The women activist group was initiated a few centuries ago, however, it is still relevant until today. With the course of time, women figured out how to demonstrate that they can be as good as men, in almost all circles of life. Due to all the efforts and social activity, women altered the preconceive opinion towards themselves and achieved significant results.

However, it was only a few centuries ago that women were in completely unique circumstance. In the nineteenth century, people thought that women were brought into the world just for marriage, and they could not make any decisions. Violence against women exists in different forms, therefore when it happens, often people do not pay attention. Stetson stated that "there comes John, and I must put this away,- he hate to have me write a word" (Stetson 3).

That woman was living in fear of her husband, named John. John thought that he could cure his wife by making sure she stayed in a room by herself and not allowed her to see no one, even her new baby. In my opinion, this was a type of violence against women because John used his power and his knowledge to isolate his wife. His woman hated the yellow wallpaper in the room where she was sleeping. However, she was not able to express her feelings with her husband or anyone else.

Domestic violence against women is a serious problem that threatens the physical and emotional wellbeing of women, and that negatively affects the quality of their life. Violence is a huge issue that affect women worldwide. I think people who are abusing women have never learned how to cope successfully with angry feelings. Life is full of events that cause us immense stress and frustration, but the abusive male does not have the communication skills necessary for resolving the conflict passively.

Not listening to women's understanding of life as shown in Stetson's story was disturbing. Therefore, any type of bad treatment against women should be condemn by the law. Additionally, people need to be educated about their constitutional rights because every human being deserves to be treated equally, with respect and honor.

Women's Tyranny in Morocco. Domestic Violence in Reverse Housseine Bachiri, 2017-11-16 Seminar paper from the year 2014 in the subject Gender Studies Mohammed V University at Agdal Department of English course Gender Studies language English abstract This paper examines the other side of gender violence Domestic violence is not always about men being victimizers and women being victims In this study I tried to investigate the opposite of this assumption It is generally assumed that in our Moroccan culture women the fairer sex are the victims of abuse and ill

treatment on the part of their male partners the rough sex In this research paper we aim to examine the reverse of this assumption Specifically we aim to provide an answer to the question of whether Moroccan women abuse their male partners and if the answer is in the affirmative we intend to answer another related double question namely how and why do Moroccan women abuse their male partners It would be noted that in the present work we use the expression women s tyranny to refer to women s ill treatment of men by using harshness cruelty and violence and their prioritization of their own selfish interests over those of men It also implies the violation of men s rights and the questioning of their manhood The term women s tyranny will be defined and discussed at length in chapter 1
