Bell Work For Grade Ela:

The Middle School Classroom Angela Vaughn Averitt, 2008 Middle school is the Rodney Dangerfield of the education system it gets no respect We've all heard disparaging comments about it in fact we've all lived through it and most of us would probably never choose to go back to that point in time But some people actually choose to teach middle schoolers while others are assigned that level when they enter the profession Now there's a manual to help middle school teachers especially those just beginning their careers First time author Averitt writes from experience she's been an educator since 1997 here offering a step by step guide that deals with all areas of teaching from organizing the classroom to establishing order to gaining students respect Perhaps too basic for some in the profession this work could be a godsend to others
