equity Educational Equity in a Global Context presents eight case studies designed to guide readers through complex and nuanced conversations about dilemmas of educational equity and ethics around the world The case studies include conversations on student grading in the Covid 19 pandemic the risks and rewards of online learning equitable homework policies and refugee education Each case is followed by a model conversation among diverse participants based in Australia Germany Hong Kong Kenya Mexico the UK and the USA The participants include scholars activists teachers students parents and community leaders from across the political spectrum Each chapter includes discussion questions and suggestions for further reading Readers will come away from this collection with the resources and capacities to deliberate about dilemmas of educational ethics in their own contexts and work towards a more equitable future for students around the globe More case studies and resources can be found at justiceinschools.org *Systems Science* Frank A. Stowell, Daune West, James G. Howell, 2012-12-06 As we approach the end of the 20th century we can look back upon the achievements that have been made in a variety of human endeavours with pride Enormous strides have been made to improve the quality of life of millions of people through the application of the scientific discoveries made during this and past centuries The 20th century will be remembered as much for the mass exploitation of scientific discovery as for the discoveries themselves The technological age has meant that the human being is able to contemplate activities which defy nature For example some of the work involved in the preparation of these proceedings has been done whilst travelling at over 500 miles per hour seven miles above the surface of the earth It is not difficult to conjecture about the effect that this relatively recent technology has had upon a number of systems Air transportation has provided a number of benefits including such disparate examples such as enabling holidays famine relief and the cross fertilisation of cultural practices from other lands Equally there have been undesirable effects such as enabling the means of mass destruction interference in other cultures and the speedy transportation of disease Moreover the physical presence of the aeroplane itself represents the consumption of fossil fuels a source of pollution and a change in the way think about life The view expressed here is of course the view of an inhabitant of the western world

Vocational Education at a Distance Joao Oliveira, Greville Rumble, 2013-10-23 Drawing on case studies this volume highlights the common problems encountered by educators who must provide vocational training at a distance from their pupils The contributors discuss the impact of modern technology on education and consider the future role of distance education methods *The Times Index*, 2010 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement
