

Analytic Geometry Word Problems

Answer the following questions in a Word document and upload the document to the appropriate drop box.

1) A straight road rises at an inclination of 0.3 radian from the horizontal. Find the slope and change in elevation over a one-mile section of the road.

So, using the triangle we find the slope by:

$$m = \tan(0.30) = 0.31$$

Now, we can find the change in elevation over a one mile section of the road using:

$$\sin(0.30) = \frac{h}{1}$$

$$h = 0.295 \text{ miles}$$
