**Reading the Art in Caldecott Award Books** Heidi K. Hammond, Gail D. Nordstrom, 2014-08-14 Reading the Art in Caldecott Award Books is a practical and easy to use reference handbook explaining what makes the art in Caldecott Medal and Honor books distinguished. It is a useful manual for librarians, teachers, and others who want to better understand picture book illustration. This book includes many useful components: Short entries about fifty-six books; Information on styles and media; Artistic analysis of the illustrations; Appendixes on selected sources for further reading; Randolph Caldecott Medal terms and criteria; bibliography of entries; and a list of Caldecott winners. Glossary of art terms; Indexes of author, illustrator, title, media, and style. This book, used as a handbook in conjunction with Caldecott Award books, provides readers with ready-to-use information they can share with children and others while helping to build confidence in one's ability to talk about art in all picture books.

**Children's Literature and Culture** Rebecca Rowe, 2025-08-08 Children's Literature and Culture: An Introduction guides readers in the study of culture in and around and through children's literature. Children's literature has long been used as a mechanism by which a culture passes its values from one generation to the next. Because of this culturally didactic purpose, children's literature can be viewed as one of the most fruitful areas of study of any given culture. At the same time, studying the cultures from which works of children's literature emerge and in which they circulate can also help better understand not only the ideas of childhood that underpin individual texts for children but the role they play in the construction and transmission of different cultural ideologies. This book teaches readers this double work of using culture to understand children's literature and vice versa. This volume traces the scholarly methodologies and histories that have attended the study of each of the 20 chapters given subject from the representation of race in and around children's literature to questions of censorship to how libraries can and do shape children's literature. In the process, it prepares readers to confidently enter and forward scholarly debates and to teach such debates to their own students.

***The Newbery & Caldecott Awards*** Kathleen T. Horning, 2009 The latest edition of the Newbery and Caldecott Awards guide covers the most distinguished American children's literature and illustration. Featured in this edition are a comprehensive annotated awards listing; Kathleen T. Horning's new essay exploring the topic of new editions and bibliographic citations for updated works; notes indicating those Caldecott Medal winners and Honor Books that have been revised and republished with new art; Bette J. Peltola's essay explaining terms and definitions associated with both awards; information on media used in the award-winning books; and a glimpse at criteria used to select the awards.

**Top of the News**, 1985 **The Newbery and Caldecott Awards**, 1995 Incorporating a list of winning titles since the beginning of the awards, this text is completed with pictures of the current medalists and additional remarks from the Caldecott committee.

***School Library Journal***, 2010 **Books in Print**, 1977 **Prizing Children's Literature** Kenneth B. Kidd, Joseph T. Thomas Jr., 2016-11-10 Children's book awards have mushroomed since the early twentieth century and especially since the 1960s when literary prizing became a favored

strategy for both commercial promotion and canon making There are over 300 awards for English language titles alone but despite the profound impact of children s book awards scholars have paid relatively little attention to them This book is the first scholarly volume devoted to the analysis of Anglophone children s book awards in historical and cultural context With attention to both political and aesthetic concerns the book offers original and diverse scholarship on prizing practices and their consequences in Australia Canada and especially the United States Contributors offer both case studies of particular awards and analysis of broader trends in literary evaluation and elevation drawing on theoretical work on canonization and cultural capital Sections interrogate the complex and often unconscious ideological work of prizing the ongoing tension between formalist awards and so called identity based awards all the more urgent in light of the We Need Diverse Books campaign the ever morphing forms and parameters of prizing and scholarly practices of prizing Among the many awards discussed are the Pura Belpr Medal the Inky Awards the Canada Governor General Literary Award the Printz Award the Best Animated Feature Oscar the Phoenix Award and the John Newbery Medal giving due attention to prizes for fiction as well as for non fiction poetry and film This volume will interest scholars in literary and cultural studies social history book history sociology education library and information science and anyone concerned with children s literature

**Dust Off the Gold Medal** Sara L. Schwebel,Jocelyn Van Tuyl,2021-08-23 The oldest and most prestigious children s literature award the Newbery Medal has since 1922 been granted annually by the American Library Association to the children s book it deems most distinguished Medal books enjoy an outsized influence on American children s literature figuring perennially on publishers lists on library and bookstore shelves and in school curricula As such they offer a compelling window into the history of US children s literature and publishing as well as into changing societal attitudes about which books are best for America s schoolchildren Yet literary scholars have disproportionately ignored the Medal winners in their research This volume provides a critically and historically grounded scholarly analysis of representative but understudied Newbery Medal books from the 1920s through the 2010s interrogating the disjunction between the books omnipresence and influence on the one hand and the critical silence surrounding them on the other Dust Off the Gold Medal makes a case for closing these scholarly gaps by revealing neglected texts insights into the politics of children s literature prizing and by demonstrating how neglected titles illuminate critical debates currently central to the field of children s

literature In particular the essays shed light on the hidden elements of diversity apparent in the neglected Newbery canon while illustrating how the books respond sometimes in quite subtle ways to contemporaneous concerns around race class gender disability nationalism and globalism     Bibliographic Guide to Education ,2001 lists publications cataloged by Teachers College Columbia University supplemented by The Research Libraries of The New York Public Library
