Social Work Practice with Fathers Jennifer L. Bellamy, Brianna P. Lemmons, Qiana R. Cryer-Coupet, Jennifer A. Shadik, 2022-10-31

Social workers need to work with fathers across many service systems but lack guidance on how to do so and most engagement assessment and intervention work for family serving systems is mother and child focused. Father inclusive readings and resources are also limited. Drawing on the expertise of well regarded research and practice experts in the field, this comprehensive book provides guidance to social work practitioners and researchers on how to engage, assess and serve fathers. Instructors can use the text to include fathers in courses on the human behavior and social environment, family systems, clinical practice, diversity or service systems. Social service systems unfortunately have often struggled to positively engage men as parents. Recent demographic trends indicate that fathers are providing more direct care to children and single father households are one of the most rapidly growing demographic groups in the United States. Barriers to their successful engagement include biases and assumptions about men and fathers, a lack of father friendly policies and practices in the field, limited training on how to work with fathers and relatively limited father inclusive social work research until recently. This book addresses these barriers. It is a guide to social workers in their efforts to better serve men as parents and does so from an ecological and systems perspective. Multiple case examples and practical tools are provided as well as specific content on major social service systems. Topics explored include Father Engagement, Organizational Father Friendly Assessments, Interventions with Fathers, Setting the Course for Future Theory Research and Practice with Fathers. *Social Work Practice with Fathers: Engagement, Assessment and Intervention* is a book that could be folded into foundation courses in social work or used by practitioners in the field. It is an essential text for graduate students in social work, psychology, sociology, child development, allied health and similar disciplines and professions and a go to resource for helping professionals/practitioners such as social workers, psychologists and licensed professional counselors. Advanced undergraduate students in these disciplines and professions also will find the text useful in their studies and work.
