Theatre Design and Technology ,1974 Issues for 1965 include Recent publications on theatre architecture no 13 14

Theatre Design & Technology ,1965 The Callas Legacy John Ardoin,1977 Maria Callas has been called the supreme operatic interpreter and personality of her time This book is a complete study of the Callas musical legacy and is an essential guide to the fascinating and overwhelming variety of her talent Callas career coincided with the introduction of new techniques for recording operas particularly the development of the long playing record and Callas herself was in large part responsible for the great increase in recorded operas Her first commercial discs were made in 1949 and from then until 1974 thirty three of her forty seven roles were taken down complete Many of these roles were recorded in performances spanning a number of years and here in this study of all the commercial recordings many private and pirated recordings as well as broadcast performances the reader is given a fascinating examination of Callas growth as an artist He offers penetrating analyses of her interpretations of various roles along with many anecdotes and behind the scenes glimpses of recording sessions and performances **Engraven Desire** Philip Stewart,William M. Barron,1992 *How the "Red Star" Rose* Ishikawa Yoshihiro,2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Start over China all alone is in many instances misunderstood even by scholars Mao Zedong s biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow s 1905 1972 account in Red Star over China for the route Mao traveled from early childhood through his youth How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being He desires to help readers to reconsider the historicity of the generation of not only Mao s image but of that of historical materials With a title that evokes Gao Hua s seminal study of Mao Zedong s rise in the Chinese Communist Party Ishikawa Yoshihiro asks two critical questions What did the world know of Mao before the publication of Edgar Snow s Red Star over China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa s work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study is full of unexpected insights into the origins of early visual images of Mao the background to Snow s historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa s scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the

most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow s famous biography in 1936 and then how Snow s images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel s careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia
