Triage William Walling, 2003-02 Be fruitful advises Judeo Christian Scripture and multiply and replenish the earth Eight centuries BCE the global population was inferred to have been roughly five millions soaring to between 50 and 60 millions when Julius Caesar fell and escalating in the mid 17th century to about a half billion The significant benchmark of one billion reached circa 1804 doubled in 123 years to 2 billions in 1927 to 3 billions in 1960 Only 14 years later in 1974 4 billions crowded the world growing to 5 billions by 1987 6 by 1999 and 7 billions in late 2011 Despite wars famines pestilence climate change effects and a plethora of natural disasters the relentless numbers keep marching upward at the alarming exponential rate of three to five births per second eleven to fifteen thousand per hour hence global projections by the U S Census Bureau and United Nations will reach eight billions by 2027 and in a relatively short span approximately 9 billions by 2046 But what lies beyond the crucial nexus when our planet can no longer tolerate the succeeding multitudes Learn the draconian population control tactic illustrated in TRIAGE and pray that this fictional account never becomes a reality
