**Asia-Pacific Security Challenges** Anthony J. Masys, Leo S.F. Lin, 2017-09-25 This edited book examines the contemporary regional security concerns in the Asia Pacific recognizing the Butterfly effect the concept that small causes can have large effects the flap of a butterfly's wings can cause a typhoon halfway around the world For many Asia Pacific states domestic security challenges are at least as important as external security considerations Recent events both natural disasters and man-made disasters have pointed to the inherent physical economic social and political vulnerabilities that exist in the region Both black swan events and persistent threats to security characterize the challenges within the Asia Pacific region Transnational security challenges such as global climate change environmental degradation pandemics energy security supply chain security resource scarcity terrorism and organized crime are shaping the security landscape regionally and globally The significance of emerging transnational security challenges in the Asia Pacific Region impact globally and conversely security developments in those other regions affect the Asia Pacific region

Cybersecurity in China Greg Austin, 2018-05-15 This

book offers the first benchmarking study of China's response to the problems of security in cyber space. There are several useful descriptive books on cyber security policy in China published between 2010 and 2016. As a result, we know quite well the system for managing cyber security in China and the history of policy responses. What we don't know so well and where this book is useful is how capable China has become in this domain relative to the rest of the world. This book is a health check, a report card on China's cyber security system in the face of escalating threats from criminal gangs and hostile states. The book also offers an assessment of the effectiveness of China's efforts. It lays out the major gaps and shortcomings in China's cyber security policy. It is the first book to base itself around an assessment of China's cyber industrial complex, concluding that China does not yet have one. As Xi Jinping said in July 2016, the country's core technologies are dominated by foreigners.

*Private International Law and the Internet* Dan Jerker B. Svantesson, 2016-03-22. In this, the third edition of *Private International Law and the Internet*, Professor Dan Svantesson provides a detailed and insightful account of what is emerging as the most crucial current issue in private international law: that is, how the Internet affects and is affected by the four fundamental questions: When should a lawsuit be entertained by the courts? Which state's law should be applied? When should a court that can entertain a lawsuit decline to do so? And will a judgment rendered in one country be recognized and enforced in another? He identifies and investigates twelve characteristics of Internet communication that are relevant to these questions and then proceeds with a detailed discussion of what is required of modern private international law rules. Professor Svantesson's approach focuses on several issues that have far-reaching practical consequences in the Internet context, including the following: cross-border defamation, cross-border business contracts, cross-border consumer contracts, and cross-border intellectual property issues. A wide survey of private international law solutions encompasses insightful and timely analyses of relevant laws adopted in a variety of countries, including Australia, England, Hong Kong, the United States, Germany, Sweden, and China, as well as in a range of international instruments. There is also a chapter on advances in geo-identification technology and its special value for legal practice. The book concludes with two model international conventions: one on cross-border defamation and one on cross-border contracts, as well as a set of practical checklists to guide legal practitioners faced with cross-border matters within the discussed fields. Professor Svantesson's book brings together a wealth of research findings in the overlapping disciplines of law and technology that will be of particular utility to practitioners and academics working in this new and rapidly changing field. His thoughtful analysis of the interplay of the developing Internet and private international law will also be of great value, as will the tools he offers with which to anticipate the future. *Private International Law and the Internet* provides a remarkable stimulus to continue working towards globally acceptable rules on jurisdiction, applicable law, and recognition and enforcement of judgments for communication via the Internet.

*Trust Management in the Chinese E-Commerce Market* Yong Pan, 2024-06-06. Based on the classic adverse selection model, this book sets up the cyber lemons market model and analyzes the basic rule of asymmetric information. This

book focuses on the topics as following Is there lemons in e commerce market What rule do the cyber lemons characterize How to build the cyber lemon market model What is the particularity of adverse selection in cyber markets What is more how to eliminate or avoid the cyber lemons in Chinse e commerce market This book aims to provide the accumulation for e commerce research and support decision making for management in Chinese e commerce markets and suggests trust management solutions to eliminate or decrease the cyber lemons Through this book it helps readers understand the ideas and effective methods of trust management in the Chinse e commerce market while deepening the reverse selection model and theory *Analysis and Forecast of China's Social Conditions (2018)* Peilin LI,Guangjin CHEN,Yi ZHANG,2021-11-22 This collection of articles selected from the Blue Book of Chinese Society 2018 originally published in Chinese reviews China s social condition from 2017 to 2018 Chapter one offers an overview Chapters two to seven present China s social conditions in 2017 from six aspects including urban and rural income and spending employment for college graduates social security system education system healthcare and public safety In chapters eight to nineteen findings are presented and analyzed from a number of social surveys on topics such as the sharing economy college students new white collar urban workers online public opinion and others A statistical overview of China s Social Development in 2017 is given in the last chapter
