Deng Xiaoping Alexander V. Pantsov,Steven I. Levine,2015-04-01 Deng Xiaoping joined the Chinese Communist movement as a youth and rose in its ranks to become an important lieutenant of Mao s from the 1930s onward Two years after Mao s death in 1976 Deng became the de facto leader of the Chinese Communist Party and the prime architect of China s post Mao reforms Abandoning the Maoist socio economic policies he had long fervently supported he set in motion changes that would dramatically transform China s economy society and position in the world Three decades later we are living with the results China has become the second largest economy and the workshop of the world And while it is essentially a market economy socialism with Chinese characteristics Deng and his successors ensured the continuation of CCP rule by severely repressing the democratic movement and maintaining an iron grip on power When Deng died at the age of 92 in 1997 he had set China on the path it is following to this day Alexander Pantsov and Steven Levine s new biography of Deng Xiaoping does what no other biography has done based on newly discovered documents it covers his entire life from his childhood and student years to the post Tiananmen era Thanks to unprecedented access to Russian archives containing massive files on the Chinese Communist Party the authors present a wealth of new material on Deng dating back to the 1920s In a long and extraordinary life Deng navigated one epic crisis after another Born in 1904 Deng like many Asian revolutionary leaders spent part of the 1920s in Paris where he joined the CCP in its early years He then studied in the USSR just as Stalin was establishing firm control over the Soviet communist party He played an increasingly important role in the troubled decades of the 1930s and 1940s that were marked by civil war and the Japanese invasion He was commissar of a communist dominated area in the early 1930s loyal henchman to Mao during the Long March regional military commander in the anti Japanese war and finally a key leader in the 1946 49 revolution During Mao s quarter century rule Deng oscillated between the heights and the depths of power He was purged during the Cultural Revolution only to reemerge after Mao s death to become China s paramount leader until his own death in 1997 This objective balanced and unprecedentedly rich biography changes our understanding of one of the most important figures in modern history

On Reform Xiaoping Deng,2013 Since 1978 China s economy has gone from poverty level to the second highest GDP in the world How has China freed itself from the shadow of the Cultural Revolution turning the page to a bright new future Deng Xiaoping who led the second generation of Chinese leaders and was the architect of what would become the China we know was integral in China s rise His theories inspired his people and his influence is seen everywhere in China today This book collects his thoughts on a wide range of topics including economics politics education and science On Reform provides insight for scholars

Deng Xiaoping and the Transformation of China Ezra F. Vogel, 2013-10-14 No one in the twentieth century had a greater impact on world history than Deng Xiaoping. And no scholar is better qualified than Ezra Vogel to disentangle the contradictions embodied in the life and legacy of China's boldest strategist, the pragmatic disciplined force behind China's radical economic, technological, and social transformation. Sowing the Seeds of Democracy in China Merle Goldman, 1994 When they found their efforts had produced negligible results, they tried to introduce new institutions such as a free press, a legislature with real power, the rule of law, and truly competitive elections. China in the Era of Xi Jinping Robert S. Ross, Jo Inge Bekkevold, 2016 In this collection, scholars examine the prospects for China's rise and the emergent and unintended consequences posed by China's internal challenges and international assertiveness. The result is a comprehensive analysis of current policy trends in Xi's China and the implications of these developments for his nation, the US, and East Asia. *The Nanxun Legacy and China's Development in the Post-Deng Era* John Wong, Zheng Yongnian, 2001 In the spring of 1992, Deng Xiaoping made a historical tour of south China, popularly known as the Nanxun or Southern Tour. During the tour, he boldly called for more radical economic reform and further opening up of China. The Nanxun has become a political landmark in the history of the People's Republic of China, much like great events such as the Great Leap Forward, the Cultural Revolution, and the 1989 Tiananmen crackdown. Deng Xiaoping has left his own legacy for the country. The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat-sen and the communist revolution to Mao Zedong. In this collection of articles, leading China scholars and experts analyze how the Nanxun has sparked off dynamic economic growth in China and drastically changed the political and social landscape of the country. Contents: Economic Growth and Transformation; Social Dynamism and Consequences of Economic Transition; Ideological Decline; Party Decay and Return to Control; Legal Reforms and the Search for More Efficient Governance. Readership: General readers. **Continuities Between Mao Zedong's China and Deng Xiaoping's China** Julian Ostendorf, 2011-07 Essay from the year 2011 in the subject History Asia grade 2.0 University of Warwick Department of History course China since 1900 language English abstract Das Essay untersucht die politische Entwicklung Chinas seit Gründung der PRC unter Mao Zedong bis zur Öffnung Chinas und seiner Modernisierung unter Deng Xiaoping. With

Deng Xiaoping's strong support the reformers ultimately won but they and China paid a heavy price Here Richard Baum provides a lively comprehensive guide to the intricate theater of post Mao Chinese politics He tells the intriguing story of an escalating intergenerational clash of ideas and values between the aging revolutionaries of the Maoist era and their younger more pragmatic successors Baum deftly analyzes the anatomy of the reformers ultimate victory in his brilliant reconstruction of the twists and turns of the reform process

China's Military Procurement in the Reform Era Yoram Evron, 2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy. This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up. This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping, Jiang Zemin and Hu Jintao. It shows how China's political and military leaders have sought to adjust military procurement policy to meet China's strategic objectives, to relate it to non-military needs, to strike a balance between the import of weapons and indigenous production and to determine the connections between hardware and other components of military power. Exploring in detail five major shifts in the nation's military procurement, it traces the considerations and negotiations among China's civilian and military leaderships. By doing so, it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China's military procurement directions as well as their limitations, prospects and operational implications. As the first book to study comprehensively and systematically the attributes shaping China's military procurement, it will be of great interest to students and scholars of Chinese politics, Chinese history and military and strategic studies.
