Kan, 2007-01-01 Hong Kong's Chinese History Curriculum from 1945 Politics and Identity investigates the ways in which Chinese history has evolved as a subject in Hong Kong secondary schools since 1945 and the various social political and economic factors that have shaped the curriculum through an examination of a wide range of primary and secondary source materials and interviews This book examines how the aims content teaching learning and assessment of the Chinese history curriculum have evolved since 1945 It describes how Chinese history became an independent subject in secondary schools in Hong Kong despite the political sensitivity of the subject how it consolidated its status during the colonial period and how it has faced threats to its independence since the return of Hong Kong to China in 1997 An important element of the book is its in depth analysis of the major socio political and socio economic forces that have been involved in the development of Chinese history This book will be of interest to all who are interested in history education and curriculum development and readers who are concerned with history education

tertiary and secondary levels in greater detail The final section Ideals vs Reality the Interplay of Diverse Interests and Diverse Perceptions looks at the conflicting goals and perceptions of different stakeholders with a concluding chapter that summarizes the main lessons to be learnt This book will be of interest to scholars educators parents policymakers politicians and all who are concerned about our younger generation and their future The editors Lok Sang Ho Paul Morris and Yue ping Chung are to be congratulated on producing a volume which is both hard hitting and insightful about education reforms in Hong Kong The range of experiences of the contributing authors contribute to a most interesting mix of perspectives about education reform The focus is squarely on Hong Kong in terms of general policy and reform issues followed by more specific chapters dealing with issues of graduate teachers English as a medium of instruction and the role of the media However the issues raised are very applicable to many countries This book is a valuable contribution to the literature on education reform
