Diamant, 2022-01-15 In *Useful Bullshit* Neil J. Diamant pulls back the curtain on early constitutional conversations between citizens and officials in the PRC Scholars have argued that China like the former USSR promulgated constitutions to enhance its domestic and international legitimacy by opening up the constitution making process to ordinary people and by granting its citizens political and socioeconomic rights But what did ordinary officials and people say about their constitutions and rights Did constitutions contribute to state legitimacy Over the course of four decades the PRC government encouraged millions of citizens to pose questions about and suggest revisions to the draft of a new constitution Seizing this opportunity people asked both straightforward questions like what is a state but also others that through implication harshly criticized the document and the government that sponsored it They pressed officials to clarify the

meaning of words phrases and ideas in the constitution proposing numerous revisions Despite many considering the document bullshit successive PRC governments have promulgated it amending the constitution debating it at length and even inaugurating a Constitution Day Drawing upon a wealth of archival sources from the Maoist and reform eras Diamant deals with all facets of this constitutional discussion as well as its afterlives in the late 50s the Cultural Revolution and the post Mao era Useful Bullshit illuminates how the Chinese government understands and makes use of the constitution as a political document and how a vast array of citizens police workers university students women and members of different ethnic and religious groups have responded Resources in Education ,1992 *A Supplement to Allibone's Critical Dictionary of English Literature and British and American Authors ...* John Foster Kirk,1891 **The Independent** ,1884 **Herald and Presbyter** ,1894 **Messenger and Visitor** ,1919 **The Free Methodist** ,1900 **National Union Catalog** ,1979
