*Atlas of Congenital Cardiac Disease* Maude E. Abbott, 2006 The American Heart Association published Maude Abbott's *Atlas of Congenital Cardiac Disease* in 1936. The Atlas was an important contribution to the understanding of cardiac defects and helped provide the stimulus for rapid advances in the diagnostic physiologic and surgical aspects of congenital heart disease over the following decades. These advances have since progressed to such a degree that given current radiologic imaging and surgical techniques many of the anomalies illustrated in the Atlas are rarely seen as complete morphologic specimens. This reprinting of the Atlas underlines the importance of Abbott's contribution for the present generation. This reprint includes a short history of Abbott's life and how she came to create the Atlas including a discussion of the material she used for her 1934 London Exhibit which served as the basis for the Atlas. The original text and illustrations are enhanced by color prints of fifty-five specimens in the Abbott Collection of the McGill Pathology Museum. Re-publication of the Atlas in 2006 coincides with the 100th anniversary of the International Academy of Pathology which Abbott co-founded.

Transcatheter Aortic Valve Implantation Arturo Giordano, Giuseppe Biondi-Zoccai, Giacomo Frati, 2019-07-01 This book provides comprehensive information on transcatheter aortic valve implantation (TAVI) which was introduced for the treatment of aortic valve disease less than two decades ago. It explains how TAVI has delivered satisfactory results even in high and intermediate risk patients and outlines how it continues to evolve thus requiring awareness of state-of-the-art approaches to indication, risk stratification, device choice, procedure and follow-up. In addition, it reports on the complex and multidisciplinary approach needed to maximize the efficacy, safety and appropriateness of TAVI, providing detailed clinical, interventional and surgical perspectives focusing on the development of this cardiovascular intervention. Starting with the history of TAVI, addressing the interventional anatomy of aortic valve disease and reporting on the expert authors' day-to-day experiences, this highly informative book offers an essential update for all cardiologists and surgeons interested in transcatheter aortic valve implantation as well as any clinician, decision maker and stakeholder involved in patient selection, procedural management and follow-up.

**Nurturing Children's Spirituality** Holly Allen, 2008-03-01 Children's spiritual development is currently a hot topic in Christian circles as well as in other fields and disciplines such as educational psychology, medicine, developmental psychology, education and sociology. The key question for Christian scholars and educators is: How do Christian beliefs and practices uniquely interrelate with children's spirituality? In 2003 and again in 2006 a national conference entitled *Children's Spirituality Conference: Christian Perspectives* examined children's spirituality from a distinctly Christian standpoint. This book is a collection of the best materials from the 2006 conference. The first half of the book addresses definitional, historical and theological concerns related to spiritual development in children. The second half explores best practices for fostering spiritual growth among our children in our homes, families, churches, Christian schools and among special populations of children from a wide spectrum of Christian scholars and practitioners. The volume closes with John Westerhoff's moving

keynote address and Catherine Stonehouse and Scottie May's eloquent culminating plenary address *Nurturing Children's Spirituality* provides a rich cross section of the current research and writing by Christian scholars on children's spirituality Contributors Holly Catterton Allen Michael J Anthony Stacy Berg Chris J Boyatzis MaLesia Breeding Marilyn Brownlee Linda V Callahan Jane Carr Mara Lief Crabtree Karen Crozier James Riley Estep Jr Jeffrey E Feinberg Stephanie Goins Judy Harris Helm Dana Kennamer Hood Sungwon Kim Kevin Lawson Scottie May Marcia McQuitty Heidi Schultz Oschwald Donald Ratcliff Pam Scranton Timothy A Sisemore Catherine Stonehouse La Verne Tolbert T Wyatt Watkins John H Westerhoff III
