**Canada's Fourth National Report on Climate Change**, 2006 The fourth national communication entitled Canada's Fourth National Report on Climate Change 4NR provides an update of Canada's current status and responses to climate change The 4NR includes an overview of Canada's key policies and measures a summary of Canada's national GHG inventory and projections of emissions to 2020 and an overview of the science impacts vulnerability assessment and adaptation issues facing Canada in the future **Fuel Consumption Guide**, 2012 **Budget Des Dépenses** Canada. Transport

Canada, 2005 *Sustainable Automobile Transport* L. Ryan, Hal Turton, 2008-01-01 Transport and in particular road transport represents a significant global threat to long term sustainable development and is one of the fastest growing consumers of final energy and sources of greenhouse gas emissions In this book long term energy economy environment scenarios are used to identify the key technological developments required to address the challenges passenger car transport poses to climate change mitigation and energy security It also considers possible targets for policy support and examines

some of the elements that contribute to the significant levels of uncertainty particularly social and political conditions The book then builds on this long term scenario analysis with a broad review of recent empirical examples of relevant policy implementation to identify near term options for the passenger transportation sector which may promote a shift towards a more sustainable transport system over the longer term Sustainable Automobile Transport will be of particular interest to those in the policy process who are striving to address the automobile derived challenges associated with climate change a growing rather than declining problem It will have a worldwide audience as every developed and rapidly growing society struggles to address the dynamic growth in greenhouse gas emissions from automobiles
