Between Hunger and Imagination Edmar Camara, 2025-07-18 This book is like a magic window that shows the world through the eyes of a boy called Buzinga It s funny because he tells us simple things as if it were me trying to understand what s going on around me He talks about being hungry playing with his friends and getting up to mischief but also about sad moments like when his family has to move or when he loses loved ones For me as a child it s like a big playground full of adventures I see Buzinga swimming in rivers exploring waterfalls collecting cigarette packages as if they were treasures and even sneaking into parties to get food It s exciting to imagine these adventures while reading But when an adult reads this story they seem to start remembering old things They get pensive sometimes even sad because they better understand the difficult parts that Buzinga faces the poverty the lack of food and how he grew up too fast For them this book is like an old portrait that shows what life was like in the past in the 1960s in a small town in the interior of Minas Gerais The most interesting thing is that both children and adults can learn a lot from Buzinga He teaches us to be brave to find happiness in the little things and to never give up even when everything seems difficult The book is like a bridge that connects the world of children s imagination with the memories and reflections of adults In the end everyone who reads it comes to understand that even with just a few things it is possible to go on great adventures and create precious memories It s as if the book were saying Look around you Every bit of the world can be a new and exciting discovery
