

Chapter 16

Biomes

In Chapter 8, you learned about seasons, wind, ocean currents, and weather patterns. All of these elements work together to produce different climates in different parts of the world. In this chapter, you will learn about climates and climate regions called biomes. Earth has six main biomes that have particular plants and animals. These biomes are deserts, grasslands, temperate deciduous forests, rainforests, tundra, and tundra. In which biome do you live? What types of plants and animals live where you live?

Key Questions

1. How do plants and animals survive in the desert?
2. In which biome would you find a mouse?
3. What is your biome like?
