Democracy Militarism And Nationalism In Argentina 1930 1966 An Interpretation:

Democracy, Militarism, and Nationalism in Argentina, 1930-1966 Marvin Goldwert, 2014-11-06 Until 1930 Argentina was one of the great hopes for stable democracy in Latin America Argentines themselves believed in the destiny of their nation to become the leading Latin American country in wealth power and culture But the revolution of 1930 unleashed the scourges of modern militarism and chronic instability in the land Between 1930 and 1966 the Argentine armed forces or factions of the armed forces overthrew the government five times For several decades militarism was the central problem in Argentine political life In this study Marvin Goldwert interprets the rise growth and development of militarism in Argentina from 1930 to 1966 The tortuous course of Argentine militarism is explained through an integrating hypothesis The army is viewed as a power factor torn by a permanent dichotomy of values which rendered it incapable of bringing modernization to Argentina Caught between conflicting drives for social order and modernization the army was an ambivalent force for change First frustrated by incompetent politicians 1916 1943 the army was later driven by Colonel Juan D Per n into an uneasy alliance with labor 1943 1955 Peronism initially represented the means by which army officers could have their cake nationalistic modernization and still eat it in peace with the masses organized in captive unions tied to an authoritarian state After 1955 when Per n was overthrown a deeply divided army struggled to contain the remnants of its own dictatorial creation In 1966 the army dedicated to staunch anti Peronism again seized the state and revived the dream of reconciling social order and modernization through military rule Although militarism has been a central problem in Argentine political life it is also the fever that suggests deeper maladies in the body politic Marvin Goldwert seeks to relate developments in the military to the larger political social and economic developments in Argentine history The army and its factions are viewed as integral parts of the whole political spectrum during the period under study

Time and Narrative in Intelligence Analysis Joshua Yaphe, 2025-07-11 This book offers a new framework and set of standards for intelligence analysis drawing from a variety of academic disciplines such as philosophy historiography literary theory and semiotics The US Intelligence Community is guided by a conviction that its practitioners are engaged in the scientific pursuit of fact based evidence and its institutions uphold a set of tradecraft skills based on objectivity timeliness and non politicization that serve to define

professionalism That approach is counterintuitive to the way analysts actually seek to use language and rhetoric to convince and persuade readers and counterproductive to the future recruitment and retention of subject matter experts This book re examines the assumptions and biases that underlie the intelligence profession in America and its increasing turn toward Artificial Intelligence with case studies of declassified analytical products on Argentina China Iraq Italy and South Africa This book will be of much interest to students of intelligence national security philosophy US politics and foreign policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Moving Forward, Looking Back Sarah M. Misemer, 2010 Many critical shifts in concepts of time and society's consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century These innovations restructured the way people viewed the world and dealt with public and private time The forward projectile motion along a linear track mimicked the passage of public chronological time Conversely the train also invoked a private nostalgic view of time as the traveler was yanked from his/her traditional view of the space-time continuum via the train's velocity Travelers observed the landscape disappear in their backward glance from the window although the landscape and interior compartment's space remained stagnant This optical illusion caused passengers to perceive the world in new ways Thus the train unveils a conflictive blend of nostalgia and progress in the River Plate as these countries move forward but look back
