Deloitte International Guide Ireland:

Guide to International Transfer Pricing Dr A. Michael Heimert, T.J. Michaelson, 2018-10-26 The pricing of goods services intangible property and financial instruments within a multi divisional organization particularly in regard to cross border transactions has emerged as one of the most contentious areas of international tax law This is due in no small measure to the rise of transfer pricing regulations as governments seek to stem the flow of their tax revenue from their jurisdictions This thoroughly practical work provides guidance on an array of critical transfer pricing issues The guide s relevance is further enhanced by the inclusion of country chapters covering domestic transfer pricing issues in a variety of key national jurisdictions

Transfer Pricing and Developing Economies Joel Cooper, Randall Fox, Jan Loeprick, Komal Mohindra, 2017-01-05 Recent years have seen unprecedented public scrutiny over the tax practices of Multinational Enterprise MNE groups Tax policy and administration concerning international transactions aggressive tax planning and tax avoidance have become an issue of extensive national and international debate in developed and developing countries alike Within this context transfer pricing historically a subject of limited specialist interest has attained name recognition amongst a broader global audience that is concerned with equitable fiscal policy and sustainable development Abusive transfer pricing practices are considered to pose major risk to the direct tax base of many countries and developing countries are particularly vulnerable because corporate tax tends to account for a larger share of their revenue This handbook is part of the wider WBG engagement in supporting countries with Domestic Resource Mobilization DRM by protecting their tax base and aims to cover all relevant aspects that have to be considered when introducing or strengthening transfer pricing regimes The handbook provides guidance on analytical steps that can be taken to understand a country s potential exposure to inappropriate transfer pricing transfer mispricing and outlines the main areas that require attention in the design and implementation of transfer pricing regimes A discussion of relevant aspects of the legislative process including the formulation of a transfer pricing policy and the role and content of administrative guidance is combined with the presentation of country examples on the practical application and implementation of the arm s length principle and on running an effective transfer pricing audit program Recognizing the importance of transfer pricing regulation and administration for the business environment and investor confidence this handbook aims to balance the general objective of protecting a country s tax base and raising additional revenue with investment climate considerations wherever appropriate

International Taxation of Banking John Abrahamson, 2020-02-20 Banking is an increasingly global business with a complex network of international transactions within multinational groups and with international customers This book provides a thorough practical analysis of international taxation issues as they affect the banking industry Thoroughly explaining banking s significant benefits and risks and its taxable activities the book s broad scope examines such issues as the following taxation of dividends and branch profits derived from other countries transfer pricing and branch profit attribution taxation of global

trading activities tax risk management provision of services and intangible property within multinational groups taxation treatment of research and development expenses availability of tax incentives such as patent box tax regimes swaps and other derivatives loan provisions and debt restructuring financial technology FinTech group treasury interest flows and thin capitalisation tax havens and controlled foreign companies and taxation policy developments and trends Case studies show how international tax analysis can be applied to specific examples The Organisation for Economic Co operation and Development Base Erosion and Profit Shifting OECD BEPS measures and how they apply to banking taxation are discussed The related provisions of the OECD Model Tax Convention are analysed in detail The banking industry is characterised by rapid change including increased diversification with new banking products and services and the increasing significance of activities such as shadow banking outside current regulatory regimes For all these reasons and more this book will prove to be an invaluable springboard for problem solving and mastering international taxation issues arising from banking The book will be welcomed by corporate counsel banking law practitioners and all professionals officials and academics concerned with finance and its tax ramifications International Taxation of Energy Production and Distribution John

Abrahamson, 2018-04-20 Energy is a major global industry with rapid ongoing changes in areas such as carbon taxes emissions trading regimes and the development of renewable energy The cross border nature of the industry calls for the thorough expert and up to date analysis provided in this timely and practical book Taking a down to earth problem solving approach to policy and practice in the field worldwide the author focuses on the international tax framework and the tax regimes in leading energy producing and consuming countries The book introduces and analyses significant international tax issues related to energy production and distribution extending from the tax regime in the country where the oil gas or coal exploration and production activities are located through to cross border transportation using pipelines tankers and bulk carriers to the taxation of power stations and electricity transmission and distribution networks The taxation issues covered include the following upstream oil and gas and mining taxes incentives for renewable energy carbon taxes and emission trading regimes dividend interest and royalty flows foreign tax credits permanent establishments mergers and acquisitions taxation issues for derivatives and hedging transfer pricing regional purchasing marketing service and intangible property structures free trade agreements and customs unions dispute resolution and tax administration and risk management Detailed updates are included on the most recent international tax developments affecting the energy industry including the OECD Action Plan on Base Erosion and Profit Shifting BEPS and the 2017 OECD Transfer Pricing Guidelines Case studies offer an opportunity to apply international tax analysis to specific examples and gain practice in identifying and discussing relevant international taxation issues This book will be of significant value to corporate tax managers and in house counsel together with accountants lawyers economists government officials and academics connected with the energy industry and related international taxation issues Ireland's IFSC Fiona Reddan, 2008 Twenty one years after its founding the

International Financial Services Centre IFSC has become a symbol of Irish economic success What is often forgotten is just how brave it was for Ireland to launch the concept in the depths of a prolonged 1980s recession In this book Fiona Reddan looks at the IFSC from its creation in that time of quiet economic despair through its growth during the boom years to its future in a new and challenging financial climate Exploring the motives and actions of the key players and the challenges faced and overcome she reveals the secrets of the IFSC's global success BOOK JACKET

Nonperforming Loans in Asia and Europe—Causes, Impacts, and Resolution Strategies Asian Development Bank, 2021-12-01 High and persistent levels of nonperforming loans NPLs have featured prominently in recent financial crises This book traces NPL trends during and after crises examines the economic impact of high NPLs and compares the effectiveness of NPL resolution strategies across economies in Asia and Europe The book distills important lessons from the experiences of economies using case studies and empirical investigation of ways to resolve NPLs These findings can be invaluable in charting a course through the financial and economic fallout of the coronavirus disease COVID 19 pandemic to recovery and sustained financial stability in Asia Europe and beyond

The Journal of International Taxation, 1997 *Economic Impacts of Intellectual Property-Conditioned Government Incentives* Dan Prud'homme, Hefa Song, 2016-06-21 This book provides new insights into the economic impacts strategic objectives and legal structures of an emerging branch of government incentives conditioned on meeting intellectual property related requirements Despite becoming more common in recent years such incentives ranging from patent fee subsidies and patent box tax deductions to inventor remuneration schemes are still under researched A diverse range of analytical methods including econometric analyses case studies and comparative legal analysis are used to study these incentives in countries in Europe and China Scholars policymakers and practitioners can benefit from the conceptual and practical insights as well as policy recommendations provided

University Auditing in the Digital Era Sezer Bozkus Kahyaoglu, Erman Coskun, 2022-04-05 This book explores how digital transformation is reshaping the manner in which higher education sectors emerge work and evolve and how auditors should respond to this challenging and risky digital audit universe in transforming the higher education system It serves to help professionals to understand the reality of performing the Chief Audit Executive CAE role in today's evolving business economy specifically in the higher education sector It compares and contrasts the stated IIA standards with the challenges and realities auditors may face and provides alternative scenarios to gaining a seat at the table This book also provides insight into critical lessons learned when executing the CAE role relevant for digitally transforming universities The main purpose of this study is to rethink the audit culture in the digital era and reveal the key characteristics that are open for improvement so that digitally transforming universities can be audited according to the higher education standards with a digitally supported value added audit approach Based on this approach the audit culture is reassessed considering the digital university conceptual framework and business model There are two main points to consider for the digital university work environment traceability and auditability

In this respect policy recommendations are made for best practices to achieve value added digital audits in transforming universities. The book has been written from both the reality and academic perspectives of two experienced authors. Sezer is a past CAE CEO and long term senior internal auditor who has worked in the internal audit role for various listed companies, financial institutions and government entities. Erman has extensive information technology and university accreditation knowledge in the global higher education sector. This brings a blend of value added approaches to the readers and speaks to issues about understanding and dealing with audit culture and business evolution in digitally transforming organizations along with the requirements for upholding IIA standards. Geared toward the experienced or new CAE, *University Auditing in the Digital Era: Challenges and Lessons for Higher Education Professionals and CAEs* can be a tool for all auditors to understand some of the challenges, issues and potential alternative solutions when executing the role of university auditing. In addition, it can be a valuable reference for university administrators and CIOs as well as academics and all stakeholders related to the higher education sector.
