The Etude, 1900 **Tchaikovsky's Complete Songs** Peter Ilich Tchaikovsky, Richard D. Sylvester, 2004 In this splendid volume Richard Sylvester treats Tchaikovsky's songs with great sympathy and understanding with special emphasis on relating the texts to the music The songs are presented chronologically interspersed with insightful observations about their relevance to the composer's life This book will be welcomed by performers and scholars but its fluent readability and avoidance of unnecessary detail make it easily accessible to the general reader A welcome bonus is a CD with 22 songs interpreted by outstanding singers of at least two generations George Jellinek author critic and host of WQXR's nationally syndicated program The Vocal Scene **Myth, Ritual, and Religion, Vol 1** Andrew Lang, 1913 When this book first appeared 1886 the philological school of interpretation of religion and myth being then still powerful in England was criticised and opposed by the author In Science as on the Turkish throne of old Amurath to Amurath succeeds the philological theories of religion and myth have now yielded to anthropological methods The centre of the anthropological position was the ghost theory of Mr **Etude Music Magazine** Theodore Presser, 1906 Includes music **The Talmud of Jerusalem. questions whether the idea of pure nature antecedently disregards the fact that grace enters existence and that this accomplishes a conversion in the metaphysical existential region of man's action and being. This conversion alters how man acts as an affective moral intellectual social political and spiritual being. State of nature theories transformed yet retained in the broader metaphysical and existential implications of the Hegelian Weltgeist are shown to be indebted to the ideological restrictedness of pure nature *natura pura* as providing the foremost adversary to any meaningful type of divine presence within the polis as well as inhibiting the phenomenological facticity of man as an open nature. **Annals of the New York Academy of Sciences** Thomas Lincoln Casey, Gilbert Van Ingen, Charles Lane Poor, Edmund Otis Hovey, Ralph Winfred Tower, 1916.
