Den Lille Rode:

Echoing Events Tina van der Vlies, 2022-12-12 Echoing Events questions the perpetuation actualization and canonization of national narratives in English and Dutch history textbooks wide reaching media that tendentially inspire a sense of meaning memory and thus also identity The longitudinal study begins in the 1920s when the League of Nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries The analysis shows how and why textbook authors have narrated different histories which vary in terms of context epoch and place as echoing events by using recurring plots and the same combinations of historical analogies This innovative and original study thus investigates from a new angle the resistance of national narratives to change **International Solidarity in the Low Countries during the Twentieth Century** Kim Christiaens, John Nieuwenhuys, Charel Roemer, 2020-10-12 During the 20th century a variety of social movements and civil society groups stepped into the arena of international politics This volume collects innovative research on international solidarity movements in Belgium and the Netherlands and places these movements prominently in debates about the history of globalization transnational activism and international politics *Fortaellinger* N. Fries, 1877 **Archiv for Pharmacie**, 1852 *Flexible Firm* Jakob Krause-Jensen, 2010-09-01 Bang Olufsen the famous Danish producer of high end home electronics is well known as an early exponent of value based management the idea that there should be consistency in what the organisation does a certain continuity between what the company develops and sells and the beliefs and practices of the employees This study investigates how company values are communicated and the collective identity is articulated through the use of such concepts as culture fundamental values and corporate religion as well as how employees negotiate these ideas in their daily working lives As this book reveals the identification of values meant to create cohesion and solidarity among employees came to symbolise and engender a split between the staff and the other parts of the company By examining the rise and fall of the value based management approach this volume offers the indispensable insight of anthropological enquiry to expose how social realities challenge conventional management strategies and therefore must be considered in the development of new management techniques *Catalogue of Printed Books* British Museum, 1895 **British Museum Catalogue of printed Books**, 1895 *FF Communications* Folklore Fellows, 1987 Shaping Sexual Knowledge Lutz Sauerteig, Roger Davidson, 2009-01-13 The history of sex education enables us to gain valuable insights into the cultural constructions of what different societies have defined as normal sexuality and sexual health Yet the history of sex education has only recently attracted the full attention of historians of modern sexuality Shaping Sexual Knowledge A Cultural History of Sex Education in Twentieth Century Europe makes a considerable contribution not only to the cultural history of sexual enlightenment and identity in modern Europe but also to the history of childhood and adolescence The essays collected in this volume treat sex education in the broadest sense incorporating all aspects of the formal and informal shaping of sexual

knowledge and awareness of the young The volume therefore not only addresses officially sanctioned and regulated sex education delivered within the school system and regulated by the State and in some cases the Church but also the content iconography and experience of sexual enlightenment within the private sphere of the family and as portrayed through the media
