BRIDGE MANAGEMENT MANUAL (FOR DECK CADETS & DECK RATINGS) PHILIP JOHN DEQUINA RENDADO, 2022-01-01 DECK CADETS DECK RATINGS OR INEXPERIENCED SEAFARERS THIS MANUAL IS FOR YOU MY name is Philip Rendado Author Entrepreneur and former Third Officer This book is a compilation of knowledge never truly taught at school regarding being a deck officer actual procedures on the bridge used onboard actual procedures on how to do your job as a seafarer onboard the ship Remember once you go onboard the ship the details may be slightly different from what you are going to experience but for the most part it will be the same *Introduction to Digital Navigation* Alexander Arnfinn Olsen, 2024-02-27 This book focuses on Coastal and Ocean Navigation with an emphasis on digital navigation using ECDIS and would be useful to both experienced seafarers as an aide memoire and also to cadets and trainees embarking on their maritime careers. The text has been developed for modern day ship s navigator in the digital era. It is written from the perspective that the reader s vessel will be navigated using an IMO type approved electronic chart and display information system ECDIS as opposed to traditional chart based passage planning As such the book focuses on the main principles associated with position and direction of the earth's surface geodesy projects and grids digital navigation electronic chart and data information systems fixing internal aids to navigation and systems external aids to navigation tides and currents ocean navigation coastal navigation pilotage and blind pilotage anchoring navigational errors relative velocity and bridge organisation and management **POLARIS 2MFG** Suneet Kumar, 2020-04-06 The one stop solution for your preparation of 2MFG The content of the POLARIS 2MFG android app is now available in PDF Safer Seas Koji Fukuoka, 2019-07-05 Marine accidents can occur at any time and everywhere in the world resulting in loss of life property environment and reputation of the companies involved Preventing accidents and establishing a safer world without accidents is an important agenda for the maritime industry Since the enforcement of the International Safety Management Code in 1998 companies have taken various kinds of measures to prevent accidents Unfortunately measures have been undertaken in a disorganized manner and have not been effective Experts of risk management the safety management system and accident models have each undertaken accident preventive measures within the scope of their specific fields but have not looked beyond the realm of their own fields This book discusses systematic accident prevention by integrating multi disciplinary expertise based on academic research the quality management system which has already proved its effectiveness in other fields and findings of the author's research In systematic accident prevention the weaknesses of a system within which accidents and incidents have occurred are viewed by combining scientific accident investigation data based on the International Maritime Organization model and the accident model The nature of every type of marine accident such as collisions groundings occupational casualties etc are derived by combining the accident model and statistical data System weaknesses are rectified by the risk reduction method of risk management and the rectified performance is incorporated in improvement in the

system by the PDCA cycle which is the core of the Safety Management System We can see the weakness in the system and reduce the number of accidents and incidents while utilizing limited resources optimally to prevent accidents and incidents
