**Ecology, a Systems Approach** Prassede Calabi,1998      *Interactions Within Ecosystems* Jennifer Lawson,2004 The 12 lessons in this module introduce students to ecology through an exploration of ecosystems succession biotic and abiotic elements food pyramids and energy cycles Students learn to use microscopes to explore organisms As well they investigate environmental issues related to ecosystems and the interaction between humans and other living organisms Also included materials lists activity descriptions questioning techniques activity centre and extension ideas assessment suggestions activity sheets and visuals The module offers a detailed introduction to the Hands On Science program guiding principles implementation guidelines an overview of the skills that young students use and develop during scientific inquiry a list of children s books and websites related to the science topics introduced and a classroom assessment plan with record keeping templates

**Effective Task Instruction in the First Year of School** Ilana Mushin,Rod Gardner,Claire Gourlay,2021-11-29 It is well recognised that classroom teaching is highly complex and that teachers must navigate and negotiate myriad interactions just within a lesson in order to manage the learning opportunities of their students What is less well recognised is precisely how these interactions are managed in real time during actual classroom interactions This book is designed as an original close up account of processes by which children learn to become school learners in their first year of school unpacking some of the recognised complexity of busy classrooms to hone in on what teachers and children do and how learning takes place Using the tools of conversation analysis the authors unpack a range of pedagogical interactions between teachers and children during normal class focusing on procedural instructions and the outcomes of instructed activities By including transcripts of recordings of classes in schools located in diverse communities it is possible to see which aspects of classroom interaction may be impacted by external factors such as children s language or cultural background and which aspects are applicable regardless of such factors The chapters examine teacher instructions and children s behaviour during instructions and during task performance in whole class and small group interactions Effective Task Instruction in the First Year of School brings forward a much needed wealth of knowledge into how to teach children in the first year of schooling and beyond in a way that is accessible for practising teachers student teachers as well as education researchers
