Bengtsson,Bilal Barakat,Raya Muttarak,2018-03-05 The Role of Education in Enabling the Sustainable Development Agenda explores the relationship between education and other key sectors of development in the context of the new global Sustainable Development Goals SDG agenda While it is widely understood that there is a positive relationship between education and other dimensions of development and populations around the world show a clear desire for more and better education education remains an under financed and under prioritised sector within development When education does make it onto the agenda investment is usually diverted towards increasing access to formal schooling without focusing on the intrinsic value of education as a tool for development within the international development community more broadly The authors explore these tensions through a review of literature from a range of disciplines providing a clearer picture of the relationship between education and other development sectors The book challenges silo thinking in the SDGs by exploring how achieving the SDG education targets can be expected to support or hinder progress towards other targets and vice versa Drawing on examples from both low and high income countries the book demonstrates how good education functions as an enabling right impacting positively on many other areas The book s scope ranges across education and development studies economics geography sociology and environmental studies and will be of interest to any researchers and students with an interest in education and the SDGs **Educators Guide to Free Internet Resources** Educators Progress Service,2007-05 To provide our customers with a better understanding of each title in our database we ask that you take the time to fill out all details that apply to each of your titles Where the information sheet asks for the annotation we ask that you provide us with a brief synopsis of the book This information can be the same as what may appear on your back cover or an entirely different summary if you so desire **Educators Guide to Free Social Studies Materials** ,2004 **YC Young Children** ,2008 **CVE 2000** Elizabeth F.
