Economic Paper 2 Grade Term 4 2014:

Economics of Means-Tested Transfer Programs in the United States, Volume II Robert A. Moffitt, 2016-11-18 Few government programs in the United States are as controversial as those designed to help the poor From tax credits to medical assistance the size and structure of the American safety net is an issue of constant debate These two volumes update the earlier Means Tested Transfer Programs in the United States with a discussion of the many changes in means tested government programs and the results of new research over the past decade While some programs that experienced falling outlays in the years prior to the previous volume have remained at low levels of expenditure many others have grown including Medicaid the Earned Income Tax Credit the Supplemental Nutrition Assistance Program and subsidized housing programs For each program the contributors describe its origins and goals summarize its history and current rules and discuss recipients characteristics and the types of benefits they receive This is an invaluable reference for researchers and policy makers that features detailed analyses of many of the most important transfer programs in the United States

Dundar, Benoit Millot, Michelle Riboud, Mari Shoji, Harsha Aturupane, Sangeeta Goyal, Dhushyanth Raju, 2017-06-16 A country's
education system plays a pivotal role in promoting economic growth and shared prosperity Sri Lanka has enjoyed high
school attainment and enrollment rates for several decades However it still faces major challenges in the education sector
and these challenges undermine the country's inclusive growth goal and its ambition to become a competitive upper middle
income country The authors of Sri Lanka Education Sector Assessment Achievements Challenges and Policy Options offer
a thorough review of Sri Lanka's education sector from early childhood education through higher education With this book
they attempt to answer three questions How is Sri Lanka's education system performing especially with respect to
participation rates learning outcomes and labor market outcomes How can the country address the challenges at each stage
of the education process taking into account both country and international experience and also best practices Which policy
actions should Sri Lanka make a priority for the short and medium term The authors identify the most critical constraints on
performance and present strategic priorities and policy options to address them To attain inclusive growth and become
globally competitive Sri Lanka needs to embark on integrated reforms across all levels of education These reforms must
address both short term skill shortages and long term productivity As Sri Lanka moves up the development ladder the
priorities of primary secondary and postsecondary education must be aligned to meet the increasingly complex education and
skill requirements **Power and Energy Systems III** Nopbhorn Leeprechanon, 2014-01-09 Selected peer reviewed papers
