Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

Quality education Muchativugwa L. Hove, Martha Matashu, 2021-11-30 This book investigates the intersections between education social justice gendered violence and human rights in South African schools and universities The rich and multifarious tapestry of scholarship and literature emanating from South African classrooms provides a fascinating lens through which we can understand the complex consequences of the economies of education social justice imperatives gendered violence in the lives of women and children and marginalised communities The scholarship in the book challenges readers to imagine alternative futures predicated on the transformational capacity of a democratic South Africa Contributors to this volume examine the many ways in which social justice and gendered violence mirror express project and articulate the larger phenomenon of human rights violations in Africa and how in turn the discourse of human rights informs the ways in which we articulate interrogate conceptualise enact and interpret quality education The book also wrestles with the linguistic contradictions and ambiguities in the articulation of quality education in public and private spaces This book is essential reading for scholars seeking a solid grounding in exploring quality education the instances of epistemic disobedience the political implications of place and power and human rights in theory and practice

Language and Sustainable Development Lisa J. McEntee-Atalianis, Humphrey Tonkin, 2023-03-03 This book addresses the importance of language in matters of sustainability and incorporating such concerns in implementing the UN's Sustainable Development Goals SDGs Sustainable language policy must aim to include all groups including language minorities and marginalized

populations such as refugees and aid recipients in conditions that allow for their inclusion in making and implementing policy The book brings together nine studies covering such topics as language and digital resources sustainable and inclusive multilingual education national language policy and language in peacekeeping operations A final chapter addresses the crucial intersection between sociolinguistics and economics and the implications of this for development and the SDGs

The Routledge Companion to Primary Education in India R. Govinda,2023-12-01 This companion gives a comprehensive overview of the history of primary education in India It presents an analytical narrative of the progress of primary education as a national endeavour in colonial post colonial and contemporary India and studies its transformative policy journey culminating in the adoption of education as a fundamental human right The book looks behind and beyond stated policy goals and outcomes to examine the processes involved in implementing positive change and discusses the underlying socio political factors affecting education in India The author also shares reflections on the reform measures needed to achieve the goal of education for all in India Rich in archival resources this companion will be essential reading for scholars and researchers of history of education education Indian history colonial history and South Asian history It will also be useful for policymakers organizations and professionals working in the field of education **Education in Taiwan** ,2017 **An Age of**

Accountability John L. Rury,2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree *Education Sector Plans and their Implementation in Developing Countries* Roy Carr-Hill,2023-03-09 This book examines the factors affecting the successful implementation of Education Sector Plans in developing countries It provides a detailed comparison that draws on data from 27 countries to offer careful research conclusions and policy recommendations Offering a detailed comparison of the schooling situation e g availability of potable water and toilets provision for the disabled as well as educational outcomes both test scores and percentages out of school from the 27 countries using empirical evidence the book examines the resources that have been invested in different education sectors investigating the development and success of each plan The volume uses correlation analysis to compare factors including the availability of government funding national characteristics ministerial decisions influences of country and donor stakeholders as well as district and school level issues

Thorough comparative analysis of the data is then demonstrated with two measures of achievements to identify which factors can be considered as the most important in order to reach realistic policy and research conclusions Timely and engaging this book will be of great interest to researchers scholars and postgraduate students in the field of education and international development comparative education and international education more broadly **Illinois Journal of Education** ,1910

Inclusion in Southern African Education Dipane Hlalele,Tsediso Michael Makoelle,2023-10-18 This book reflects on more than two decades of adoption practices of inclusive education policy in Southern Africa It is aimed at taking stock of the successes challenges and achievements during this journey of making education inclusive and equitable It responds to the educational needs of learners at all levels regardless of their diverse needs such as disability gender socio economic status race ethnicity and language background This book furthers the understanding and conceptualization of the notion of inclusion in education and explores the challenges experienced during the operationalization and implementation of the process It extends debates spawned by international and national policy mandates that sought to transcend exclusionary educational practices in order to realize inclusive societies and by implication inclusive classrooms It offers a comprehensive conceptual framework for inclusive education in the Southern African context while drawing parallels from the regional and international experience This book can be used as a reference or critical reading for scholars and researchers in the field of inclusive education It will empower practitioners administrators teachers and school leaders curriculum developers and planners as well as policy makers with knowledge about theory and practice regarding inclusive education in the Southern African schooling system **Bangladesh Primary Education Annual Sector Performance Report** Second Primary Education Development Program (Bangladesh).,2013 *Wrecking Ball* Stu Woolman,2021-04-29 *Wrecking Ball* explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday *Wrecking Ball* shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world s 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems This then is our children s inheritance Dystopias far far worse than the polities that we ourselves have known What if anything can mitigate the harms that are our legacy *Wrecking Ball* offers as an answer a ground breaking

analysis of South Africa's political economy It demonstrates that this country's elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similalry operates under no such smart pretenses and undeterred and unmatched ventures into terrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet

The Right to Research Kate Reed, Marcia C. Schenck, 2023-01-15 Refugees and displaced people rarely figure as historical actors and almost never as historical narrators We often assume a person residing in a refugee camp lacking funding training social networks and other material resources that enable the research and writing of academic history cannot be a historian because a historian cannot be a person residing in a refugee camp The Right to Research disrupts this tautology by featuring nine works by refugee and host community researchers from across Africa Europe and the Middle East Identifying the intrinsic challenges of making space for diverse voices within a research framework and infrastructure that is inherently unequal this edited volume offers a critical reflection on what history means who narrates it and what happens when those long excluded from authorship bring their knowledge and perspectives to bear Chapters address topics such as education in Kakuma Refugee Camp the political power of hip hop in Rwanda women migrants to Yemen and the development of photojournalism in Kurdistan Exploring what it means to become a researcher The Right to Research understands historical scholarship as an ongoing conversation one in which we all have a right to participate
