Economic Activities Of The Muta:

Islamic Economics and COVID-19 Masudul Alam Choudhury, 2021-01-28 This book is a timely exploration of an unprecedented cataclysmic pandemic episode. It examines certain critical aspects of socio scientific theory across a variety of diverse themes and through an epistemic lens. The book investigates the general theory of pandemic episodes and their adverse long term effects on human and environmental wellbeing. It includes an in depth study of COVID 19 but also looks to the future to contemplate potential pandemics to come. The existing approach to the study of pandemics is critically examined in terms of the prevalent isolated and thus mutated way of viewing human and mechanical relations in the name of specialization and modernity. The book presents a novel model of science economy society moral inclusiveness that forms a distinctive theoretical approach to the issue of normalizing all forms of pandemic challenges. It is methodologically different from existing economic theory including the critical study of microeconomic foundations of macroeconomics. Human and environmental existence along with its multidisciplinary outlook of unity of knowledge between modernity traditionalism and socio cultural values is emphasized in the treatment and cure of pandemic episodes. The book is a unique reference work offering fresh wisdom within the moral methodological worldview.

Annual Review of the Sociology of Religion. Volume 5 (2014), 2014-11-13 In contrast with the growing belief in society that traditional religious institutions are losing credibility there has been renewed interest in monasteries going beyond what is strictly defined as religious. There are for example increasingly numerous requests for cooking and gardening courses as well as guided tours in monasteries. The appeal of monastic products and media interest in the subject. In parallel with a strong crisis in its recruitment monasticism in the Western world is experiencing a period of innovation and experiments accompanied by unexpected popularity as is evidenced by numerous films and publications. We hope that this book will deepen the understanding of the specificity of monastic life in the contemporary world in a religious area and from a sociological point of view.
