Dissertation and Scholarly Research: Recipes for Success: 2018 Edition Jim Goes, Marilyn K. Simon, 2017-09-20 A Dissertation Guide for Professional Learners Doctoral education has changed dramatically over the last three decades Traditionally pursuit of a doctoral or research credential involved intense study at a large traditional research university and

was reserved for those seeking careers in academia or research. The process of completing doctoral level work at traditional universities usually required a commitment to full time study, varied tremendously between institutions and was often somewhat mysterious. Today all this has changed. The emergence and growth of online education has led to a proliferation of doctoral learning possibilities for busy professionals. Individuals in the industry, nonprofit and education sectors are pursuing doctoral study as a means to advance their careers, increase their market value in the workplace and establish their professional stature. If this sounds like you, then you have come to the right place. *Recipes for Success* is the book that will launch you on a successful quest for the doctoral degree. Dissertations are very personal endeavors and accomplishments originating with problems and issues that are meaningful and important to the doctoral learner. These professionals are deeply grounded in their understanding of the issues and needs of their profession. *Recipes* build on this understanding, helping learners to discover and frame issues they are passionate about and construct a credible and influential research study around this passion. While most dissertation guides focus largely or exclusively on the mechanics of writing and organization, *Recipes* approaches dissertation development as an iterative process of thinking and self reflection that leads learners to discover what matters most to them and to their professions and enables them to frame this meaning into a research problem and purpose and to organize and execute a study design to fit and thus solve the problem and achieve the purpose. From the very beginning of your doctoral journey to the ultimate achievement of degree completion, this book is your guide to the process and content of dissertation and research creation. In *Recipes for Success*, we articulate a process by which you can build the pieces of a successful and influential dissertation. Using a workbook approach rich in tools, templates, frameworks, examples, web integration and hard won lessons from experience, *Recipes* provides a friendly, easy to navigate process, crafting issues and ideas into research and results. Based on our 40 years of collective experience in the online educational setting, mentoring over 300 professional learners to success in completing their doctorates, including numerous award winners, we identify the most important factors for success and the traps to avoid. Whether you are considering doctoral study, are already in a doctoral program or are working to develop and complete your dissertation, you will find *Recipes for Success* a key ingredient in your success as a doctoral learner. Our graduates tell us that *Recipes* is THE book that made a difference in their doctoral career and success. YOU can do it too. Good luck on your doctoral journey.

Educational Research, Ken Springer, 2009-10-05. Clearly organized, well written and user friendly. *Educational Research* provides a comprehensive look at quantitative, qualitative and mixed method approaches to research. Using concrete examples throughout, the book features a Spotlight on Research section providing an extended look at three published articles per chapter. The book has been created with a breadth and depth fitting a higher level course yet is clear enough to accommodate students in advanced undergraduate classes. Set up in a modular format, this easy to read text can be followed in chronological order or chapters can be used out of sequence to better serve your classroom needs. Rich in pedagogical

features Educational Research offers several elements that help the student to synthesize the main ideas of each chapter into the context of a real world researcher *Research in Health Care* Julius Sim,Chris Wright,2000 Covering the essential stages in research from posing the right questions to the methods for collecting presenting and analysing data this comprehensive book emphasises the importance of evidence based practice Qualitative and quantitative data are examined in detail to help the researcher to choose the most appropriate technique *Discovering Psychology with DSM5 Update* Don Hockenbury,Sandra E. Hockenbury,2014-05-01 More than any other introductory textbook Don and Sandra Hockenbury s *Discovering Psychology* makes the story of psychology a captivating highly personal experience for all kinds of students Without sacrificing science the authors draw on personal experiences and other real stories to illustrate essential concepts and important research directions in a recognizable relatable way This is especially true in the area of cutting edge neuroscience which the Hockenburys make extremely teachable and utterly absorbing without oversimplifying the presentation Special Package Each student copy of *Discovering Psychology* Sixth Edition is packaged with the book s Study Guide and Worth Publishers new Three Dimensional Brain DSM 5 Updates Available for Fall 2014 classes this update version features new content from Sandra Hockenbury in response to the release of the DSM 5 This new content is integrated into the text without changing pagination or the structure of the chapters A special DSM 5 Supplement by Sandra Hockenbury is available for Fall 2013 and Spring and Summer 2014 courses *Research Projects for Business & Management Students* Siah Hwee Ang,2021-01-27 This second edition of *Research Projects for Business and Management Students* provides students undertaking extended research with a foundation upon which to build their practice The author sets out each stage of a research project systematically to allow you to follow along and build an understanding of the processes involved in carrying out in depth pieces of research as well as the functions of commonly used research methods Conversation boxes throughout will also help situate your learning by providing examples of commonly asked questions challenges that may occur while you carry out your research and guidance on how to answer them Professor Siah Hwee Ang is Professor of International Business and Strategy inaugural Chair in Business in Asia and Director of the NZ s Southeast Asia Centre of Asia Pacific Excellence at Victoria University of Wellington New Zealand **The Development of Children and Adolescents** Penny Hauser-Cram,J.
