

## Cell Biology Unit Study Guide - Answer Key

1. A student could tell the difference between onion skin cells and cheek cells because the onion skin cells have a cell wall and chloroplasts
2. What is the difference between a prokaryotic and a eukaryotic cell? Prokaryotes have no membrane-bound organelles
3. Why does a virus require a host cell? Because they are not able to make proteins on their own
4. What type of organisms are prokaryotes? bacteria
5. The function of a cell membrane is to (1) control what enters and leaves the cell, (2) support the shape of the cell, and (3) contain identification markers for other cells.
6. In the final phase of completion, proteins are modified by special enzymes in what organelle? Golgi apparatus
7. In which organelle would water and dissolved materials be stored? vacuole
8. Describe the structure and function of the following organelles: endoplasmic reticulum, ribosomes, Golgi apparatus, mitochondrion.  
(a) ER - network of interconnected membranes forming sacs and canals; transports proteins,  
(b) ribosomes - ribosomal RNA; site of protein synthesis  
(c) Golgi apparatus - membranous sacs; modify and package proteins  
(d) mitochondrion - membranous sacs; produces ATP
9. Osmosis is defined as the movement of water molecules from a high concentration to a low concentration through a selectively permeable membrane.
10. The structure and function of membrane proteins are described as globular proteins that create narrow passageways or channels for molecule transport.
11. The cellular structure that is involved in producing ATP during aerobic respiration is the mitochondrion.
12. The membrane-bound organelles which convert solar energy to chemical energy are? chloroplasts
13. What is the function of the nucleus?  
(a) stores DNA  
(b) controls most of the cell's processes

Brinegar, 2015-07-05 The Conversational Science series is a new or at least different approach to preparing for the latest version of the Medical College Admissions Test This bit is only my personal opinion but I think the easiest way to do well on the MCAT is to understand the material There s one heck of a lot of material though so how should you study the things you ve already covered in class This study guide is written in an informal tone of voice because you and I are having a conversation and not a lecture This study guide contains a limited number of crudely drawn figures You re the person studying for the exam so I ask you to draw the rest of the figures for yourself A figure that you draw yourself even if you have no artistic talent whatsoever teaches you much more than you can learn by simply looking at the beautiful full color professionally drawn figures in your textbooks This study guide has a limited number of review questions so you can check if you really did understand one chapter before you move on to the next This study guide DOES NOT contain any practice exams This is because in my opinion again based on my experience as a student and as an instructor the questions in the practice exams of many study guides are too often confusing poorly written and not at all like the actual questions on the actual exam And sometimes the answers given for some questions on some practice exams are just plain wrong This study guide may not be for everyone but I think there s a good chance it ll help you convince yourself that you really do understand the material Medical College Admissions Test MCAT and MCAT2015 are registered trademarks of the Association of American Medical Colleges which neither sponsors nor endorses this product I took the MCAT way back in the middle of the 1980s and I did very well if I do say so myself **NYSTCE Biology Study Guide** Nystce Biology Exam Prep Team, Cirrus Test Prep, 2016-11-15 NYSTCE Biology Study Guide Exam Prep and Practice Test Questions for the New York State Teacher Certification Examinations will provide you with a detailed overview of the NYSTCE Biology exam so you know exactly what to expect on test day We ll take you through all the concepts covered on the test and give you the opportunity to test your knowledge with practice questions Even if it s been a while since you last took a major test don t worry we ll make sure you re more than ready Cirrus Test Prep s NYSTCE Biology Study Guide Exam Prep and Practice Test Questions for the New York State Teacher Certification Examinations includes A comprehensive REVIEW of The Nature of Science Molecular and Cellular Biology Genetics and Evolution Biological Classification Animals Plants Ecology Technology and Social Perspectives
