Chord Melody Mandolin:

Mandolin Chord Melody System Aaron Weinstein, 2015-10-19 If you've heard jazz guitarists like Joe Pass play chord melody you may think that the style requires an encyclopedic knowledge of music theory musical super powers or making a deal with the devil But fear not This book will show you how to create your own satisfying chord melody arrangements on the mandolin and will do so in a practical applicable non stroke inducing way Chord Melody and Drop 2 Chords for Mandolin

Pete Martin, 2015-03-27 Chord melody is a very common sound in jazz There are many books videos and web sites to teach this for pianists and guitarists but not for mandolin Thus the need for this book Chord melody is often played using drop 2 chord voicings see chapter 1 for an explanation of what these are Drop 2 works very well so anyone wanting to get into this important part of jazz should study drop 2 chord voicings In chord melody the melody note is on top and the rest of the notes of the chord are underneath the melody note This makes the melody easy to hear and understand and allows us plenty of color to add beneath the melody In this book we will learn drop 2 chord voicings first sections 1 through 4 Section 5 will show how to use drop 2 chords for chord melody arrangements and chord soloing This book has written music notation and tablature They are both written for 5 string mandolin tuned CGDAE low to high However one can easily use these examples for 4 or 8 stringed mandolins tuned GDAE low to high by just ignoring the 5th string notes in the tab and anything written below the open G string on 4 or 8 stringed mandolins **Jazz Mandolin Appetizers** Don Stiernberg, 2013-11-13

Mandolinists who wish to expand their improvisational vocabulary and spice up their rhythm accompaniment are invited to try some Jazz Mandolin Appetizers This book and accompanying audio prepared by chef Don Stiernberg include a batch of etudes that address the challenges every improvising mandolinist faces These include common issues such as selecting notes that sound good with chord progressions and finding them on the fretboard In the first section new melodies are presented for chord progressions that are often played at swing and jazz jam sessions These tunes will benefit players of any style Concepts are discussed at the beginning of each tune such as harmonic analysis and the effects of certain intervals useful groups of tones The tablature suggests fingerings for the melodies The chordal section shows how chords and progressions can be made more interesting by adding color tension and movement Chord substitution is also demonstrated Working through this section will prepare the player with commonly played progressions and will expand their chord voicing vocabulary up and down the neck Lastly a study of chord melody style playing is presented Playing the melody and harmony at the same time yields full sounding solo arrangements Don Stiernberg is a leading proponent of the jazz mandolin style He has eight available recordings performs coast to coast and abroad writes a column for Mandolin Magazine and teaches at several mandolin events

The Mandocello Mark E. Freemantle, 2023-04-05 With decades of experience on the mandocello and even more on the mandolin and guitar the author presents a comprehensive and progressive approach to learning to play this versatile instrument Written entirely in bass clef the logical clef for an instrument with the same low to

high CGDA tuning as an orchestral cello the book starts with basic technique and music theory and ultimately brings the reader to an intermediate to advanced plateau Whether you come to the mandocello as your first fretted instrument or transition from mandolin or guitar this method will facilitate your progress as a literate musician The method includes mandocello etudes by pioneering multi instrumentalist Myron Bickford 1876 1960 popular folk melodies a pair of duets and a few mandocello parts from mandolin orchestra arrangements Fretboard diagrams and standard notation introduce scales chords position playing and shifting stretching concepts as each new key signature engenders new challenges From basic down and upstrokes to tremolo great attention is paid to mandocello picking technique sight reading and overall musicianship Most tunes in this book are written as solos Along with its online play along audio tracks the variety of teaching repertoire in this new method will guide you step by step in mastering the mandocello in several musical genres Then as a skilled mandocellist who reads the bass clef you will be welcome as an optional low voice in any musical ensemble Includes access to online audio
