Rose,2016-09-13 A thorough education in how to move from simply maximizing the economic output of cities to improving the well being of all urban residents Daniel L Doctoroff CEO Sidewalk Labs 2017 PROSE Award Winner Outstanding Scholarly Work by a Trade Publisher Cities are birthplaces of civilization centers of culture trade and progress cauldrons of opportunity and the home of eighty percent of the world s population by 2050 As the twenty first century progresses metropolitan areas will bear the brunt of global megatrends such as climate change natural resource depletion population growth income inequality mass migrations education and health disparities among many others In The Well Tempered City Jonathan F P Rose the man who repairs the fabric of cities distills a lifetime of interdisciplinary research and firsthand experience into a five pronged model for how to design and reshape our cities with the goal of equalizing their landscape of opportunity Drawing from the musical concept of temperament as a way to achieve harmony Rose argues that well tempered cities can be infused with systems that bend the arc of their development toward equality resilience adaptability well being and the ever unfolding harmony between civilization and nature These goals may never be fully achieved but our cities will be richer and happier if we aspire to them and if we infuse our every plan and constructive step with this intention A celebration of the city and an impassioned argument for its role in addressing the important issues in these volatile times The Well Tempered City is a reasoned hopeful blueprint for a thriving metropolis and the future A thought provoking introduction to the future of cities Publishers Weekly      **America's Addiction to Automobiles** Chad Frederick,2017-09-21 A provocative look at our nation s dependency on the automobile and how its potential impact on urban design will either make or break our health economy and quality of life In this thought provoking work author and urban planning expert Chad Frederick scrutinizes the use of automobiles in cities investigating its role in exacerbating urban inequalities and thwarting sustainability of modern society Through a comprehensive thoughtful discussion Frederick illustrates how the automobile is fundamentally at odds with the very nature of cities He shows how cars impose huge burdens on our health equity environment local and national economy and quality of life Most of all he shows how automobile dependency has put our entire society at risk The book delves into the monumental role of automobiles in the development of cities after the Great Depression impacting the American identity and affecting the way we produce and manage urban spaces Frederick provides**

compelling evidence that cities with more diverse modes of transportation are greener healthier more prosperous and even more enjoyable places to live than automobile dependent cities He identifies one institution responsible for our inability to improve our cities the social sciences and examines the root cause of our inability to make progress toward more multi modal cities In conclusion the author offers a radical solution for moving beyond the underlying logic that forces us to create automobile dependent cities      **The Americans** McDougal-Littell Publishing Staff,2002-03-04      **Big Data Science and**

**Analytics for Smart Sustainable Urbanism** Simon Elias Bibri,2019-05-30 We are living at the dawn of what has been termed the fourth paradigm of science a scientific revolution that is marked by both the emergence of big data science and analytics and by the increasing adoption of the underlying technologies in scientific and scholarly research practices Everything about science development or knowledge production is fundamentally changing thanks to the ever increasing deluge of data This is the primary fuel of the new age which powerful computational processes or analytics algorithms are using to generate valuable knowledge for enhanced decision making and deep insights pertaining to a wide variety of practical uses and applications This book addresses the complex interplay of the scientific technological and social dimensions of the city and what it entails in terms of the systemic implications for smart sustainable urbanism In concrete terms it explores the interdisciplinary and transdisciplinary field of smart sustainable urbanism and the unprecedented paradigmatic shifts and practical advances it is undergoing in light of big data science and analytics This new era of science and technology embodies an unprecedentedly transformative and constitutive power manifested not only in the form of revolutionizing science and transforming knowledge but also in advancing social practices producing new discourses catalyzing major shifts and fostering societal transitions Of particular relevance it is instigating a massive change in the way both smart cities and sustainable cities are studied and understood and in how they are planned designed operated managed and governed in the face of urbanization This relates to what has been dubbed data driven smart sustainable urbanism an emerging approach based on a computational understanding of city systems and processes that reduces urban life to logical and algorithmic rules and procedures while also harnessing urban big data to provide a more holisticand integrated view or synoptic intelligence of the city This is increasingly being directed towards improving advancing and maintaining the contribution of both sustainable cities and smart cities to the goals of sustainable development This timely and multifaceted book is aimed at a broad readership As such it will appeal to urban scientists data scientists urbanists planners engineers designers policymakers philosophers of science and futurists as well as all readers interested in an overview of the pivotal role of big data science and analytics in advancing every academic discipline and social practice concerned with data intensive science and its application particularly in relation to sustainability      **Where Am I in the Picture?** Claudia Mitchell,Katarina Giritli-Nygren,Relebohile Molestane,2023-12-18 Positionality and researcher reflexivity how to account for one s subject position remain as challenges for new researchers But they also remain as challenges for experienced

researchers who are often involved in multiple research projects simultaneously Where Am I in the Picture sheds light on the idea of researcher positionality through visual methodologies particularly in the context of studying rurality in Canada Sweden and South Africa The book is intended for new and experienced researchers seeking to decolonize their own perspectives in research in the social sciences and humanities It incorporates photographs drawings and memory work to highlight the social constructedness of what counts as rural Drawing together compelling narratives from researchers about their positionality in studying rurality the book highlights a need for greater attention to where we are in the picture more broadly It suggests that when it comes to the rural researchers need to rethink the interplay of dominant images insider and outsider perspectives and what this interplay means in relation to interpretation Where Am I in the Picture presents a new vision of how to take into consideration positionality in research The Saturday Review of Politics, Literature, Science and Art ,1877
