*Situated Literacies* David Barton, Mary Hamilton, Roz Ivanic, 2005-08-04 *Situated Literacies* is a rich and varied collection of key writings from leading international scholars in the field of literacy. Each contribution, written in a clear accessible style, makes the link between literacies in specific contexts and broader social practices. Detailed ethnographic studies of a wide variety of specific situations, all involving real texts and lived practices, are balanced with general claims about the nature of literacy. Contributors address a coherent set of issues: the visual and material aspects of literacy; concepts of time and space in relation to literacy; the functions of literacies in shaping and sustaining identities in communities of practice; the relationship between texts and the practices associated with their use; the role of discourse analysis in literacy studies. These studies, along with a foreword by Denny Taylor, make a timely and important contribution to literacy theory and suggest directions for the further development of the field. *Situated Literacies* is essential reading for anyone involved in literary education.
