Ohashi, Mary Hillis, Robert Dykes, 2025-11-21 Artificial Intelligence in Our Language Learning Classrooms brings together leading researchers and practitioners exploring the pedagogical ethical and emotional dimensions of generative AI GenAI in second language L2 education Across two major sections L2 skill development and broader educational perspectives contributors offer theory informed and practice oriented insights into how GenAI can transform language teaching and learning Topics include conversational AI and chatbots writing development extensive reading pragmatics instruction ethics emotions and teacher led inquiry Through a balance of optimism and critical reflection this volume situates AI integration

within established educational frameworks supporting teachers as they navigate the rapidly evolving technological landscape. The book emphasizes teacher agency, responsible innovation, and the centrality of human connection in AI-enhanced classrooms. By combining empirical research, case studies, and reflective narratives, it addresses both opportunities and challenges in using GenAI tools for language education. This comprehensive resource is essential reading for language teachers, researchers, and teacher educators seeking to build informed, ethical, and pedagogically grounded approaches to AI integration in the L2 classroom.

AI in Language Teaching, Learning, and Assessment Pan, Fang, 2024-02-12. The introduction of Artificial Intelligence (AI) has ignited a fervent academic discourse. AI's role is as both a powerful ally and a potential adversary in education. For instance, ChatGPT is a generative AI which mimics human conversation with impressive precision. Its capabilities span the educational spectrum from answering questions and generating essays to composing music and coding. Yet, as with any innovation, its advent has sparked a spirited academic dialogue. **AI in Language Teaching, Learning, and Assessment** seeks to address these concerns with rigor and thoughtfulness. It explores the undeniable drawbacks of AI in language education and offers strategic insights into their prevention. It scrutinizes the resources and safeguards required to ensure the ethical and secure integration of AI in academic settings. This book lays out the multifaceted benefits of incorporating AI into language teaching, learning, and assessment. Its chapters dissect the transformative impact of AI on pedagogy, teaching materials, assessment methodologies, applied linguistics, and the broader landscape of language education development. This book is a valuable resource for language learners, educators, researchers, and scholars alike. It beckons to those who are keen on exploring and implementing AI in education, as well as AI developers and experts seeking to bridge the chasm between technology and language education.

Insights into AI and Language Teaching and Learning Yijun Wang, Antonie Alm, Gilbert Dizon, 2025-04-16. Overview: Language educators often have varied levels of comfort and expertise with emerging technologies like Artificial Intelligence (AI). This creates a pedagogical gap that must be filled to ensure that educators can make informed choices about the technologies they integrate into their classrooms. The primary aim of **Insights into AI and Language Teaching** is to function as a comprehensive training guide for language educators interested in incorporating AI technologies into their teaching practice for foreign second language education across a variety of language contexts, not just English as a Foreign Language (EFL) but also for the teaching of other foreign languages. This book aims to act as a bridge, guiding teachers from a basic understanding of AI to a level where they can confidently employ it as part of their teaching toolbox. As teachers have a long-lasting impact on how students view learning, adopt new technologies, and even how they perceive themselves, this book will therefore focus not only on technology but also on how teachers can be empowered to use AI in a way that enhances their influence and the positive impact they can have on their students.
