

Your PT Plus

The PT Plus thermostat is a programmable thermostat which can be set to operate either as a 24-Hour product (the same program for every day of the week) or a 5-2 Day / 7 Day. 5-2 day allows you to set a program for weekdays and a program for the weekend. Full 7-day functionality allows you to set a different program for every day of the week. Each program type allows you to set 6 time and temperature events.

The default setting is 24-Hour with six time and temperature events.

Clock Setting

Your PT Plus is fitted with a real-time clock, which is pre-set at the factory. You will not have to alter the time settings. A special feature of this real-time clock is to automatically update the time during the summer/winter time change removing the need to manually alter the clock.

General Operation

With the unit in Auto mode (the small arrow to bottom of screen will point to Auto) the temperature can be changed for a short time by using the + or - buttons. Changing the temperature in this way will keep the PT Plus set to your new temperature until the next pre-programmed event (at which time it will revert to programmed temperature). The temperature you are setting will flash on the screen. Once temperature is set, the unit will revert to showing the current temperature. The  indicator will show on the screen if the heating is turned on.

Controls and Display Layout

* temperature displayed is actual room temperature unless adjusting the + or - button when it displays the set temperature. Once adjustment is complete and after 5 seconds this will return to actual room temperature.

How do I know when to change the batteries.

When the batteries start to run low a battery icon will display for 15 seconds, every 10 seconds, to indicate "low battery" during this time the PT PLUS will function normally (see fig 1). Please replace batteries with (2 x AA 1.5V Alkaline batteries). After 6 months the PT PLUS will cease to function and will permanently display the battery icon and nothing else, shown in (fig 2).

(Fig 1)

(Fig 2)

How to replace the batteries see fig 3.

Remove the battery cover using a coin. Replace the spent batteries with 2 x AA 1.5V alkaline batteries ensuring correct orientation. Replace the battery cover pressing fully home.

(Fig 3)

Basic Settings

The PT Plus thermostat is a programmable thermostat which can be set to operate either as a 24-Hour product (the same program for every day of the week) or a 5-2 Day / 7 Day. 5-2 day allows you to set a program for weekdays and a program for the weekend. Full 7-day functionality allows you to set a different program for every day of the week. Each program type allows you to set 6 time and temperature events.

The default setting is 24-Hour with six time and temperature events.

PT Plus 24-Hour

Pre-set Program 24-Hour

Your PT plus comes with the following default settings pre-programmed for your convenience:

Event	1	2	3	4	5	6
Time	6:30	8:30	12:00	14:00	16:30	22:30
Temperature	20.0	16.0	16.0	16.0	21.0	7.0

*The above settings can be understood using the chart below

As you can see, at 06:30, the heating will come on to raise the temperature to 20°C. At 08:30, the temperature set point is dropped from 20°C down to 16°C, it stays at 16°C throughout the day, until 16:30 when the temperature increases to 21°C. The temperature then drops down to a night-setback temperature of 7°C until 06:30 when the cycle repeats for the next day.

To adjust these times and temperatures

- With the product operating as normal in the Auto mode press  twice until the display is flashing as shown. The time will be flashing, use the + or - buttons to adjust the 1st time as required.
