Canadian Cognitive Ability Test Sample Questions

Dona J. Matthews, Joanne F. Foster

Canadian Cognitive Ability Test Sample Questions:

Neuropsychological Evaluation of the Child Ida Sue Baron, 2003-10-02 This essential desk reference will meet the demand for a broad and convenient collection of normative data in child neuropsychology. In a clearly written, well organized manner, it compiles published and previously unpublished normative data for the neuropsychological tests that are most commonly used with children. Far from being a raw collection, however, it integrates concepts and models central to the neuropsychological assessment of children into the discussions of data. All these discussions have a practical clinical focus. As background, the author considers the current status of child neuropsychology practice, test models, behavioral assessment techniques, observational data, procedures to optimize child evaluation, communication of results through the interpretive session, and report writing and preliminary assessment methods. Then she reviews the tests and data under the broad domains of intelligence, executive function, attention, language, motor and sensory perceptual function, visuospatial, visuoconstructional function, and learning and memory. Written by a seasoned practitioner, this book will be an extraordinary resource for child and developmental neuropsychologists, clinical psychologists, child neurologists, and their students and trainees.

Resource Teachers Jennifer Katz, 2013-12-10 In *Resource Teachers*, Dr. Jennifer Katz describes the fundamental shift in the role of the resource teacher in the inclusive classroom outlined in her previous book *Teaching to Diversity*. Dr. Katz discusses practical and innovative ways to partner with classroom teachers to create inclusive learning communities by co-planning, co-teaching, and co-assessing instruction, with less emphasis on traditional practices of pull-out remediation, IEPs, and modified programming.
